Global Plastic Surgery Products Market 2016-2020

Description: About Plastic Surgery Products

Plastic surgery is a comprehensive specialty that includes a wide range of aesthetic and reconstructive surgical procedures.

Plastic surgeons use cosmetic procedures to manage defects pertaining to the face, nose, breast, neck, thigh, and arms; remove burn marks; and treat injuries caused by accidents.

Procedures associated with plastic surgery include injections of neurotoxins (Botox) and dermal fillers, laser hair removal, body contouring, chemical peels, breast and dental implantation, reconstructive surgeries to correct a broad range of cranial and facial deformations, and other cosmetology treatments. Plastic surgeons and dermatologists perform all these procedures under local anesthesia.

The analysts forecast the global plastic surgery products market to grow at a CAGR of 9.47% during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global plastic surgery products market for 2016-2020. To calculate the market size, the report considers the consider revenue generated from the sale of:

- Injectables
- Implants
- Equipment

The market is divided into the following segments based on geography:

- Americas
- EMEA
- APAC

The report, Global Plastic Surgery Products Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Allergan
- Cynosure
- DePuy Synthes
- Galderma
- Syneron Medical
- Stryker

Other prominent vendors

- Alma Lasers
- AQTIS Medical
- Body BeneFits
- CEREPLAS
- Chromogenex
- Coherent
- ColBar LifeScience
- CoolTouch
Market drivers
- Growing popularity of plastic surgery procedures

Market challenges
- High cost of products

Market trends
- Popularity of laser-based aesthetic procedures

Key questions answered in this report:
- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?
PART 01: Executive summary
- Highlights

PART 02: Scope of the report
- Market overview
- Top vendor offerings

PART 03: Market research methodology
- Research methodology
- Economic indicators

PART 04: Introduction
- Key market highlights
- Plastic surgery

PART 05: Market landscape
- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by type
- Implants
- Injectables
- Equipment

PART 07: Global plastic surgery injectables market
- Market overview

PART 08: Global plastic surgery implants market
- Market overview

PART 09: Global plastic surgery equipment market
- Market overview
- Market size and forecast

PART 10: Geographical segmentation
- Plastic surgery products market in Americas
- Plastic surgery products market in EMEA
- Plastic surgery products market in APAC

PART 11: Market drivers
- Growing popularity of plastic surgery procedures
- Increased availability of non-invasive procedures
- Treatment options for fat and cellulite removal
- Availability of patient-specific cranial implants

PART 12: Impact of drivers

PART 13: Market challenges
- High cost of products
- Lack of reimbursement
- Adverse effects of plastic surgeries and associated products

PART 14: Impact of drivers and challenges

PART 15: Market trends
- Advances in technology
- Popularity of laser-based aesthetic procedures
- Demand for plastic surgery procedures among men
- Emergence of combination treatments
- Rise in medical tourism

PART 16: Vendor landscape
