
Description: This 3-book set provides a concise and highly visual approach to the basic sciences and clinical pathology of the digestive system. These books in The Netter Collection of Medical Illustrations (the CIBA "Green Books") have been expanded and revised to capture current perspectives in gastroenterology, hepatology, and pancreatology - from normal anatomy and physiology through pathophysiology, diagnostics and treatment. Endoscopic, radiographic and pathologic images supplement the classic Netter illustrations, as well as new illustrations. These updated classics are ideal for students and health professionals seeking an easily accessible guide to the complete digestive tract.
