Bone Marrow Transplantation - Pipeline Review, H1 2016

Description: Bone Marrow Transplantation - Pipeline Review, H1 2016

Summary

‘Bone Marrow Transplantation - Pipeline Review, H1 2016’, provides an overview of the Bone Marrow Transplantation pipeline landscape.

The report provides comprehensive information on the therapeutics under development for Bone Marrow Transplantation, complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The report also covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases. Additionally, the report provides an overview of key players involved in therapeutic development for Bone Marrow Transplantation and features dormant and discontinued projects.

The report features investigational drugs from across globe covering over 20 therapy areas and nearly 3,000 indications. The report is built using data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Drug profiles featured in the report undergoes periodic review following a stringent set of processes to ensure that all the profiles are updated with the latest set of information. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

The report helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage.

Note*: Certain sections in the report may be removed or altered based on the availability and relevance of data.

Scope

- The report provides a snapshot of the global therapeutic landscape of Bone Marrow Transplantation
- The report reviews pipeline therapeutics for Bone Marrow Transplantation by companies and universities/research institutes based on information derived from company and industry-specific sources
- The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages
- The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities
- The report reviews key players involved Bone Marrow Transplantation therapeutics and enlists all their major and minor projects
- The report assesses Bone Marrow Transplantation therapeutics based on drug target, mechanism of action (MoA), route of administration (RoA) and molecule type
- The report summarizes all the dormant and discontinued pipeline projects
- The report reviews latest news related to pipeline therapeutics for Bone Marrow Transplantation

Reasons to buy

- Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage
- Identify and understand important and diverse types of therapeutics under development for Bone Marrow Transplantation
- Identify potential new clients or partners in the target demographic
- Develop strategic initiatives by understanding the focus areas of leading companies
- Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics
- Devise corrective measures for pipeline projects by understanding Bone Marrow Transplantation pipeline depth and focus of Indication therapeutics
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope
- Modify the therapeutic portfolio by identifying discontinued projects and understanding the factors that drove them from pipeline

Featured News & Press Releases

Jan 12, 2016: Pluristem Receives U.S. FDA Clearance to Initiate Clinical Trial of PLX-R18 to Treat Insufficient Hematopoietic Recovery Following Bone Marrow Transplant

Nov 17, 2015: Pluristem to Present New Data on PLX-R18 at American Society of Hematology's Annual Meeting

May 06, 2015: Pluristem Granted European Patent for Use of Cells to Help Treat Damaged Bone Marrow

Mar 24, 2015: Pluristem Announces Key Strategic Objectives for Development of PLX-R18 in Hematopoietic Indications

Mar 03, 2015: Pluristem and Hadassah Medical Center Announce Significant Data Showing PLX-R18 Cells Improve Bone Marrow Transplantation

Dec 04, 2014: Pluristem and Hadassah Medical Center Will Collaborate to Study Potential of PLX-RAD Cells to Improve Bone Marrow and Umbilical Cord Blood Transplant Outcomes
Nov 13, 2014: Cell Source's Megadose Drug Combination Receives Regulatory Approval in Italy to Commence Human Clinical Trials

Oct 27, 2014: Case Western Reserve University to Study Pluristem's PLX-RAD Cells in Umbilical Cord Blood Transplants for the Treatment of Blood Cancers and Genetic Diseases

May 07, 2013: Pluristem Develops PLX-RAD Cells For Use In Hematology

Sep 05, 2012: Pluristem Therapeutics Announces Successfully Treatment Of Third Critically Ill Patient With PLX Cells Under Compassionate Use

Ordering:
Order Online - http://www.researchandmarkets.com/reports/3691103/
Order by Fax - using the form below
Order by Post - print the order form below and send to
Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: Bone Marrow Transplantation - Pipeline Review, H1 2016
