Europe Agricultural Tractor Machinery Market - By Type, Application and Geography-Market Shares, Forecasts and Trends (2015 — 2020)

Description: The European Agricultural Tractor Machinery was USD XXX million in 2015 and is estimated to reach a value USD XXX million by 2020 with a CAGR of XX%. With the changing industrial trends, leading to development of more sophisticated Agricultural machinery, farming methods took a giant leap forward. The power source required for farming was supplied by Ox and other domestic animals, but gradually, portable engine was developed. Improvising the same, tractor engine, a multipurpose mobile energy source that was the ground-crawling cousin to the steam locomotive came into use. The first tractor came into use in the late 19th century. These equipment increase the productivity of the producer, improve the quality of product and reduce the hazards of operations. However, with the developing technology, in the foreseeable future, driverless tractors which use GPS maps and electronic sensors may come into play. The European market represents a considerably high weight for global industry turnover. Germany is leading the market at present in Europe.

The several subsidies by the government for Farm mechanization is driving the Agricultural tractor machinery market. The increasing modernization and thus the decrease in the farmland is a hindrance for growth of the tractors market. The Agricultural tractors are also being used in several other non-agricultural applications such as in sand mines, brick kilns, road making etc., thus providing an opportunity for growth for the key players in the market.

The tractors market has been segmented based on product types into Pedestrian and Wheeled tractors. Also, they can be segmented to various types depending on the end applications into Utility, Row crop, Orchard type, Industrial, Garden, Rotary tillers, Implement carriers and Earth Moving Tractors. Major companies operating in the segment are Deere and Company, CNH Global NV, Mahindra & Mahindra Ltd., AGCO tractor, Farmtrac Tractor Europe, Massey Ferguson, and Escorts etc. which are constantly trying to increase their presence and market share by several strategies.
