Quality Risk Management for Drugs and Biologics: Systematic and Holistic Approaches - Webinar

Description: This seminar is intended to discuss systematic and holistic approaches of quality risk management (QRM) for pharmaceutical industry (drugs, biosimilars, and biologics).

This seminar is further intended to discuss how quality risk management can be effectively integrated into a quality system (QS) in the pharmaceutical industry.

This seminar will help attendees understand risk management principles, risk management tools, methods and processes applicable to the pharmaceutical industry. In addition, this seminar will help the attendees how to develop and implement a systematic and holistic risk management strategy integrated into the quality system.

In this 60-min presentation, the speaker will guide you through the details of how to implement the systematic and holistic risk management for drugs, biosimilars and biologics.
