Description:
Summary
This report provides a detailed analysis of the current industry size and growth expectations during 2016–21, including highlights of the key growth stimulators. It also benchmarks the industry against key global markets and provides detailed understanding of emerging opportunities in specific areas.

Key Findings
The report "The Qatari Defense Industry - Market Attractiveness and Emerging Opportunities to 2021: Market Profile" is an essential source of information covering the market attractiveness and emerging opportunities of the defense industry in Qatar.

Being one of the most attractive markets in the Middle East due to its robust financial position and aggressive procurement strategies, Qatar is closing its gap with historical regional strongholds such as Saudi Arabia and UAE. For the moment the country's procurements are focused on missile defense systems and associated radars, a trend that is being witnessed throughout the Middle East. With a collective expenditure of over US$12 billion, the primary reason for such expenditure is the need to build up defense against Iranian ballistic missiles and long-range rockets.
