Contactless Payment Market by Solution (Payment Terminal, Mobile Payment, Transaction & Data Management, Security and Fraud Management), Service (Professional, Managed), Payment Mode (Mobile Handsets, Smart Cards), Vertical - Global Forecast to 2021

Description:
“Increasing adoption of contactless payment technology in mobile handsets and wearables is expected to drive the contactless payment market”
The contactless payment market size is estimated to grow from USD 6.70 billion in 2016 to USD 17.56 billion by 2021, at a Compound Annual Growth Rate (CAGR) of 21.2% due to the increasing adoption of contactless payment technology in mobile handsets and wearables. Ease of integration of contactless payment technology with existing cards and increased average transaction value is also driving the growth of the market.
“Payment terminal solution to dominate during the forecast period”
In 2016, payment terminal solution is expected to dominate the contactless payment solutions market due to the increasing support and assistance required by the merchants who are readily deploying the contactless payment terminals in the businesses to support contactless payment transactions. Healthcare is the fastest-growing vertical due to increasing adoption of contactless technology for bill payments in hospitals. Professional services commands the major share in contactless payment services market as these services are necessary for the successful implementation of contactless payment platforms and technologies.
“Asia-Pacific (APAC) to witness highest growth during the forecast period”
Europe is expected to hold the largest market share of the contactless payment market in 2016 due to technological advancements and increasing contactless smart card roll-outs. APAC is expected to have the highest growth rate during the forecast period due to the increasing number of contactless payment technology enabled smart phones in countries such as China, Australia, Japan, and India.
