Energy and Utilities Infrastructure Construction in the UAE to 2019: Market Forecast

Description: The 'Energy and Utilities Infrastructure Construction in the UAE to 2019: Market Forecast' contains detailed historic and forecast market value data for the energy and utilities infrastructure construction industry, including a breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition). The databook provides historical and forecast valuations of the industry using the construction output and value-add methods.

Summary:
This report is the result of extensive market research covering the energy and utilities infrastructure construction industry in the United Arab Emirates. It contains detailed historic and forecast market value data for the energy and utilities infrastructure construction industry, including a breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition). 'Energy and Utilities Infrastructure Construction in the UAE to 2019: Market Forecast' provides a top-level overview and detailed insight into the operating environment of the energy and utilities infrastructure construction industry in the United Arab Emirates. It is an essential tool for companies active across the UAE construction value chain and for new players considering to enter the market.

Scope:
- Overview of the energy and utilities infrastructure construction industry in the United Arab Emirates.
- Historic and forecast market value for the energy and utilities infrastructure construction industry by construction output and value-add methods for the period 2010 through to 2019.
- Historic and forecast market value by construction activity (new construction, repair and maintenance, refurbishment and demolition) across the energy and utilities infrastructure construction industry for the period 2010 through to 2019.

Reasons To Buy:
- This report provides you with valuable data for the energy and utilities infrastructure construction industry in the United Arab Emirates.
- This report provides you with a breakdown of market value by type of construction activity (new construction, repair and maintenance, refurbishment and demolition).
- This report enhances your knowledge of the market with key figures detailing market values using the construction output and value add methods.
- This report allows you to plan future business decisions using the forecast figures given for the market.
