Rubber Processing Chemicals (Additives) Market - By Type (Anti Degradants, Accelerators, And Others), By Application (Tire And Non-Tire), And By Region - Global Trends And Forecasts To 2021.

Description: Rubber is a polymeric compound, which consists of polymers of the organic compound isoprene, with minor impurities of other organic compounds and rubber is harvested mainly in the form of latex from certain trees. Latex is a sticky, milky colloid drawn off by making incisions into the bark and collecting the fluid in vessels in a process called "tapping". Rubber's elastic property makes it suitable for various kinds of shock absorbers and for specialized machinery mountings designed to reduce vibration.

Global demand for rubber processing chemicals is forecast to increase X % per year through 2016 to XX million metric tons. Growth will be driven by continuing robust gains in the Asia- Pacific region (especially China), and recovery in demand in the U.S., Western Europe and Japan following declines in all three areas. Rubbers chemical demand in China is projected to grow X% per year through 2016 to more than XX metric tons. Gains will benefit from healthy growth in both tire and non-tire rubber demand, with the latter rising especially strongly. The U.S., Japan and Western Europe are all expected to see a reversal from the declines experienced between 2016 and 2021. However, growth in all three regions is projected to be less than one percent per year through 2016, reflecting market maturity in rubber consuming sectors. Demand for other processing chemicals including processing aids, adhesion promoters and blowing agents, among numerous others has reached almost XX metric tons in 2015. Processing aids, used to improve plasticity and molding properties of rubber, are expected to see above average gains due to faster growth in usage of natural rubber. Natural rubber is difficult to process due to low plasticity, and therefore requires greater loadings of processing aids.

The segmentation of the rubber processing chemicals can be done based on the priorities such as depending upon the function such as anti degradants, accelerators, processing aids, polymerization regulators, anti-scorch agents, blowing agents and also can be segmented based on the process such as compounding, mixing, shaping, vulcanizing, extrusion and also classified based on the applications such as tire as well as non-tire applications and also depending upon the geographical parameters.

The leading producer of the rubber processing chemicals is from the American continent with North American countries as the leading producers of the rubber processing chemicals. Whereas, the APAC countries occupies the next position while the major among the APAC countries is occupied by China and India.

Contents:
1. Market Overview
2. Executive Summary
3. Rubber Processing Chemicals Market Landscape
3.1. Market Share Analysis
3.2. Comparative Analysis
3.2.1. Product Benchmarking
3.2.2. End User Profiling
3.2.3. Top 5 Financials Analysis
4. Rubber Processing Chemicals Market Forces
4.1. Market Drivers
4.2. Market Constraints & Challenges
4.2.1. Reduction In Chemicals Price
4.2.2. Budget Allocation Is Limiting The Rubber Processing Chemicals Market
4.3. Attractiveness Of The Rubber Processing Chemicals Industry
4.3.1. Power Of Suppliers
4.3.2. Threats From New Entrants
4.3.3. Power Of Buyer
4.3.4. Threat From Substitute Product
4.3.5. Degree Of Competition
5. Rubber Processing Chemicals Market -Strategic Analysis
5.1. Rubber Processing Chemicals Market - Value Chain Analysis
5.2. Pricing Analysis
5.3. Opportunity Analysis
5.3.1. R&D Developments On Chemicals Provide Huge Growth Opportunity For Rubber Processing Chemicals Market
5.4. Product Life Cycle
5.5. Suppliers And Distributors
5.6. Swot Analysis
6. Rubber Processing Chemicals Market- Function Type
6.1. Introduction
6.2. Anti Degradants
6.3. Accelerators
6.4. Processing Aids
6.5. Anti-Scorch Agents
6.6. Blowing Agents
6.7. Polymerization Regulation
6.8. Others
7. Rubber Processing Chemicals Market- Process Type
7.1. Compounding
7.2. Mixing
7.3. Moulding
7.4. Shaping
7.5. Extrusion
7.6. Vulcanizing
8. Rubber Processing Chemicals Market–By Applications
8.1. Introduction
8.2. Tire
8.3. Non Tire
8.4. Others
9. Rubber Processing Chemicals Market -By Industry
9.1. Aerospace And Defence
9.2. Automotive
9.3. Chemical And Petrochemical
9.4. Pulp And Paper
9.5. Food & Beverage
9.6. Power Generation
9.7. General Machineries
9.8. Semiconductors
9.9. Others
10. Rubber Processing Chemicals Market-By Geography
10.1. Americas
10.1.1. U.S.
10.1.2. Canada
10.1.3. Mexico
10.1.4. Brazil
10.1.5. Rest Of America
10.2. Europe
10.2.1. U.K.
10.2.2. Germany
10.2.3. France
10.2.4. Spain
10.2.5. Italy
10.2.6. Rest Of Europe
10.3. Asia
10.3.1. China
10.3.2. South Korea
10.3.3. Japan
10.3.4. Australia & New Zealand
10.3.5. India
10.3.6. Rest Of Apac
10.4. Rest Of The World (Row)
10.4.1. Middle East Africa
11. Rubber Processing Chemicals Market-Entropy
11.1. New Product Developments
11.2. Product Launchers, Jvs, Mergers And Acquisitions
12. Company Profiles
12.1. J. Allcock & Sons Ltd.
12.2. Emery Oleochemicals Llc
12.3. Akzonobel N.V.
12.4. Tanz Rubber Comp
12.5. Anchor-Seal, Inc.
12.6. Basf Se
12.7. Finchem (Pvt) Ltd.
12.8. Mercator International B.V.
12.9. Chemgo International Ltd.
12.10. Danre International (Pvt) Ltd.

More than 40 Companies are profiled in this Research Report, Complete List available on Request.

"Financials would be provided on a best efforts basis for private companies"

Ordering:
Order Online - http://www.researchandmarkets.com/reports/3753983/

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: Rubber Processing Chemicals (Additives) Market - By Type (Anti Degradants, Accelerators, And Others), By Application (Tire And Non-Tire), And By Region - Global Trends And Forecasts To 2021.
Web Address: http://www.researchandmarkets.com/reports/3753983/
Office Code: SC2GXZO5

Product Formats
Please select the product formats and quantity you require:

- Electronic (PDF) - 1 - 5 Users: ☐ USD 5250
- Electronic (PDF) - Site License: ☐ USD 6250
- Electronic (PDF) - Enterprisewide: ☐ USD 8450

* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: ☐ Mr ☐ Mrs ☐ Dr ☐ Miss ☐ Ms ☐ Prof ☐
First Name: ______________________ Last Name: ______________________
Email Address: * ______________________
Job Title: ______________________
Organisation: ______________________
Address: ______________________
City: ______________________
Postal / Zip Code: ______________________
Country: ______________________
Phone Number: ______________________
Fax Number: ______________________

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
