Public Policies for UFB: Benchmarking 7 Countries in Relation to the Digital Agenda for Europe

Description: This report explores ultra-fast broadband rollouts carried out as part of national government-backed plans, by taking a detailed look at the situation today in seven countries: France, Germany, Italy, Portugal, Spain, Sweden and the UK.

The report consists of two parts:
- Monographs of each country, which include a description of the current situation (demographics, technologies used), background on national programmes, details on the current programme (targets, regulatory measures, funding), the technologies being deployed, network governance and monitoring tools.

A synthesis that delivers:
- an analysis of the current status of national programmes in relation to the objectives set out in the Digital Agenda for Europe;
- an analysis of the progress being made in coverage rates;
- a description of the different monitoring and supervisory mechanisms in place for each national programme

Objectives in sync with the Digital Agenda for Europe
- Objectives in sync with the Digital Agenda for Europe, but with additional targets

Currently disparate national coverage levels
- Portugal and Sweden amongst countries with highest coverage levels
- National programme's start date has little impact on results
- More or less beneficial demographics
- FTTH: strong commitments
- Private sector investments very influential on outcome

National plans: the same basic measures but different outcomes
- Regulation: the foundation of national plans
- Direct aid to operators to accelerate rollouts
- Financial support: a combination of federal funding and other forms of subsidy

To summarise...

Contents:

1. Executive Summary

2. Methodology & definitions
   2.1. General methodology of IDATE's reports
   2.2. Background and methodology specific to this report
   2.2.1. Background
   2.2.2. Report objective
   2.2.3. Geographical scope
   2.2.4. Resources employed

3. France
   3.1. Background
   3.1.1. A population density below the European average
   3.1.2. Optimal broadband coverage, but below the European average when it comes to SFB
   3.3. Details on the current programme: Plan France Très Haut Débit
   3.3.1. Regional digital development targets
   3.3.2. Regulatory measures
   3.3.3. Measures contained in the national programme
   3.4. Technologies employed
3.5. Programme governance
3.6. Monitoring system

4. Germany
4.1. Background
4.1.1. Higher population density than the European average
4.1.2. SFB coverage above the European average
4.2. First programme in 2009 (Breitbandstrategy der Bundesregierung)
4.3. Details on the current programme (Digital Agenda 2014 – 2017)
4.3.1. Regional digital development targets
4.3.2. Regulatory measures
4.3.3. Measures contained in the national programme
4.3.4. Digitale Strategie 2025
4.4. Technologies employed
4.5. Programme governance
4.6. Monitoring system

5. Italy
5.1. Background
5.1.1. One of the highest population densities in Europe
5.1.2. Lagging behind in SFB coverage
5.2. National broadband plan (2009-2011)
5.4. Details on the current programme (Nuova strategia BUL)
5.4.1. Regional digital development targets
5.4.2. Regulatory measures
5.4.3. Measures contained in the national programme
5.5. Technologies employed
5.6. Programme governance
5.7. Monitoring system

6. Portugal
6.1. Background
6.1.1. Contrasting situations between densely populated coastal areas and more sparsely populated areas in the interior
6.1.2. More than nine out of ten households eligible for SFB
6.2. The POSC (Programa Operacional da Sociedade do Conhecimento) kicked off back in 2006
6.3. Details on the current programme (Agenda Portugal Digital)
6.3.1. Regional digital development targets
6.3.2. Regulatory measures
6.3.3. Measures contained in the national programme
6.4. Technologies employed
6.5. Programme governance
6.6. Monitoring system

7. Spain
7.1. Background
7.1.1. Very disparate regional densities
7.1.2. Catching up on BB/SFB coverage and take-up, despite regional disparities
7.2. Description of the current programme: the Digital Agenda for Spain
7.2.1. Regional digital development targets
7.2.2. Regulatory measures
7.2.3. Financing measures
7.3. Technologies employed
7.4. Programme governance
7.5. Monitoring system

8. Sweden
8.1. Background
8.1.1. A country of singular features
8.1.2. Strong performance in both coverage and take-up
8.2. Details on the current programme (Broadband Strategy for Sweden)
8.2.1. Regional digital development targets
8.2.2. Regulatory measures
8.2.3. Financing measures
8.3. Technologies employed
8.4. Programme governance
8.5. Monitoring system

9. The United Kingdom
9.1. Background
9.1.1. Demographic features
9.1.2. Coverage and take-up: UK one of Europe's leaders
9.2. Description of the current programme: Britain's Superfast Broadband Future
9.2.1. Regional digital development targets
9.2.2. Regulatory measures
9.2.3. Financing measures
9.3. Technologies employed
9.4. Programme governance
9.5. Monitoring system

10. Synthesis
10.1. Objectives in sync with the Digital Agenda for Europe
10.2. Disparate national coverage levels
10.2.1. By and large, the national programme's start date has little impact on results
10.2.2. More or less beneficial demographics
10.2.3. FTTH: strong commitments
10.2.4. Private sector investments very influential on outcome
10.3. National plans: the same basic measures but different outcomes
10.3.1. Regulation: the foundation of national plans
10.3.2. Direct aid to operators to accelerate rollouts
10.3.3. Financial support: a combination of federal funding and other forms of subsidy
