Global Smart Homes Market By Application, By Technology, By Region, Competition Forecast and Opportunities, 2011-2021

Description:
"Global Smart Homes Market By Application (Energy Management Systems, Security & Access Control Systems, etc.), By Technology (Wireless Communication Technology, etc.), By Region, Competition Forecast and Opportunities, 2011-2021"

A smart home refers to a residence equipped with computing and information technology devices, which anticipates and responds to the needs of the owner in an efficient and effective manner. In a smart home, the owner can easily monitor and control a wide range of applications such as lighting control, access control, fire detection, leak detection, energy efficiency, etc. from anywhere via his/her smartphones or internet. Smart homes also use key cards or fingerprint identification in place of conventional locks, making it harder for someone to break-in.

Increasing awareness of energy saving among customers, surging demand for real time home security coupled with growing technological advancements are anticipated to boost the global smart homes market during 2016 - 2021. In addition, backed by expanding Internet of Things (IOT) market, booming M2M communication market and thriving touchfree intuitive gesture control market, the global smart homes market is expected to register a healthy growth rate over the next five years.

According to “Global Smart Homes Market By Application, By Technology, By Region, Competition Forecast and Opportunities, 2011 - 2021”, the global smart homes market is projected to cross $ 60 billion by 2021. On the basis of application, the market has been segmented into five categories, namely, Energy Management Systems, Security & Access Control Systems, HVAC Control Systems, Entertainment Control Systems and Others. Among these categories, Energy Management Systems dominated the global smart homes market in 2015.

With increasing government efforts to optimize energy consumption, the adoption of energy management systems is expected to further increase in the coming years. In 2015, North America dominated the global smart homes market, followed by Europe, Asia-Pacific, Middle East & Africa and South America. “Global Smart Homes Market By Application, By Technology, By Region, Competition Forecast and Opportunities, 2011 - 2021” discusses the following aspects of global smart homes market:

- Global Smart Homes Market Size, Share & Forecast
- Regional Analysis - North America, Europe, Asia-Pacific, Middle East & Africa and South America
