Analytics as a Service Market - Global Forecast to 2021

Description: Analytics as a Service Market by Solution (Financial Analytics, Risk Analytics, Customer Analytics), Services, Analytics Type (Prescriptive, Predictive), Deployment Model, Organization Size, Verticals, and Regions - Global Forecast to 2021

The global analytics-as-a-service market size is estimated to grow from USD 4.76 billion in 2016 to USD 23.49 billion by 2021, at a Compound Annual Growth Rate (CAGR) of 37.6%. There is increase in data traffic due to the exponential growth of big data, analytics, and other technological modules. Hence there is a huge demand for advanced analytical solution to analyze the data and get the actionable insights.

The analytics-as-a-service market by solution is estimated to grow with the largest market share during the forecast period. These solutions are being used in various verticals and provide tremendous applications. For example, the financial analytics is being used for asset & liability management, budgetary control management, general ledger management, payables & receivables management, and profitability management.

North America holds the largest market share in 2016 and the trend is expected to continue in the coming years. The analytics-as-a-service market is showing strong positive trends in the region as several companies and industries are adopting analytics-as-a-service at various levels as a part of their strategy in order to strive in the market and to increase their productivity. The APAC market is expected to witness exponential growth and projected to be the fastest-growing region for the global analytics-as-a-service market. This is due to the rising demand for analytics-as-a-service solutions and services in this region.
