Reasons To Buy
What was the size of the Indonesia suncare market by value in 2015?

What will be the size of the Indonesia suncare market in 2020?

What factors are affecting the strength of competition in the Indonesia suncare market?

How has the market performed over the last five years?

Who are the top competitors in Indonesia's suncare market?

Key Highlights
- The suncare market consists of the retail sale of sun protection, after-sun and self-tan products. The market is valued according to retail selling price (RSP) and includes any applicable taxes. Any currency conversions used in the creation of this report have been calculated using constant 2015 annual average exchange rates.

- The Indonesian suncare market had total revenues of $13.4m in 2015, representing a compound annual growth rate (CAGR) of 5.4% between 2011 and 2015.

- Market consumption volume increased with a CAGR of 4.7% between 2011 and 2015, to reach a total of 3 million units in 2015.

- Indonesians typically prefer a lighter complexion and sun care products are increasingly popular in combating skin darkening and the appearance of freckles. However, Indonesian consumers have so far shown something of a preference for multi-benefit skin care products and this has led to lower growth in the suncare market than has been seen in some other Asian markets.
