US Air Purifier Market By Filter Type (HEPA and Activated Carbon; HEPA, Activated Carbon and Ion Ozone Generator; etc.), By End User (Commercial, Residential and Industrial), Competition Forecast and Opportunities, 2011-2021

Description: Rising commercial and industrial activities, consistently deteriorating air quality and increasing vehicle sales are driving demand for air purifiers in the United States. Major states such as California, Arizona, New York, Illinois and Ohio have been consistently registering high levels of air pollution. Consequently, these states are the major demand generators of air purifiers in the United States.

Rising air pollution levels and increasing emissions of harmful particulate matter from industrial set-ups has been resulting in increasing incidence of respiratory disorders, which has been boosting adoption of air purifiers, especially in healthcare centers and hospitality sector. Growing awareness about health impact of indoor air pollution and rising incidence of dust related allergy is also augment demand for air purifiers from the residential sector.

According to "US Air Purifier Market By Filter Type, By End User, Competition Forecast & Opportunities, 2011 -2021", the market for air purifiers in the country is forecast to grow at a CAGR of over 8% during 2016-2021, on account of growing consumer awareness about the benefits of using air purifiers.

In 2015, commercial sector was the largest demand generator of air purifiers in the country, due to rising air purifier adoption in hospitality, education, banking and healthcare sectors. HEPA and activated carbon based air purifiers have been registering the highest demand in the country due to their high efficiency in removing particulate matters and odor.

With increasing adoption of HEPA & activated carbon air purifiers in households, embassies, healthcare institutes and other commercial and residential spaces, in order to eliminate the bacteria, pollutants, damp odor, etc., the product segment is expected to continue its dominance through 2021.
