
Description:

The OLED market has been developing rapidly worldwide over the recent years, and its market size reached USD13 billion in 2015. With technology and capacity construction, OLED (from small-sized panels about 5-inch) finds fast growing application and is anticipated to substitute for LCD.

Once Apple starts to apply OLED panels in iPhone, the demonstration effect will be brought and market demand will be further spurred. It is expected that, till 2020, the global OLED market size will be up to USD33.1 billion, presenting an AAGR of about 20%.

By application, mobile phone is the largest applied market for OLED, and over 76% of OLED panels were applied in mobile phone field in 2015. In future, OLED will get increasingly used in emerging domains such as wearable device, TV, illumination, VR and automobile.

Currently, the world's OLED panel manufacturers are mainly concentrated in South Korea - Samsung Display and LG Display, among which the former focuses on medium and small sizes which are chiefly applied in mobile phone, while the latter gives priority to large-sized products primarily for TV. The two companies are now enlarging their production capacity.

During 2015-2017, Samsung Display will make total investments of USD3.6 billion to establish the novel OLED panel production line in South Korea, mainly involving in medium and small-sized OLED display screens which are still targeted at consumer electronics like smart phone. In 2016-2017, Samsung Display will lavish USD7.4 billion into the production equipment for Apple-used curved OLED display screen. As scheduled, the capacity of Samsung Display will be expanded to 30,000-45,000 substrates in 2016 and to 45,000 substrates in 2017.

LG Display is primarily focused on OLED TV and OLED illumination at present. In September 2014, LG Display launched the world's first 4K curved OLED TV. At the end of 2015, LG Display took over all OLED illumination business of LG Chem. In July 2015, LG Display announced to invest KRW1.05 trillion to newly establish a 6-generation flexible OLED production line (code: E5) in Gumi Plant, Gyeongsang, South Korea. The monthly planned capacity of this production line is up to 7,500 pcs (be subject to glass substrates which have been put into), and it plans to realize mass-production in the first half of 2017.

In China, companies like EverdisplayOptronics, BOE, Tianma Micro-electronics, and Visionox are tapping into the OLED field.

On November 21, 2015, BOE's 5.5th-generation AMOLED production line was put into production in Ordos, Inner Mongolia, which is not only Chinese Mainland's first 5.5th-generation AMOLED production line but also the world's second 5.5th-generation AMOLED production line behind Samsung. In 2016, BOE will start the Chengdu-based 6th-generation LTPS/AMOLED production line project and will add the investment of RMB24.5 billion to produce AMOLED display products, mainly targeting at medium and small-sized high-end display markets.

Tianma Micro-electronics began to construct China's first AM-OLED pilot line in Shanghai in 2010 and has produced many models of samples. Tianma plans to newly build a 5.5th-generation production line and set up three independent OLED production lines.

In May 2015, the 5.5-inch AMOLED product of Visionox was launched. On the Auto China 2016, the concept vehicle Haval HB-02 of Great Wall Motor is equipped with Visionox' OLED display screen system, which is the first publicized show of AMOLED display screen used for in-vehicle system in China.

The "Global and China Organic Light-Emitting Diode (OLED) Industry Report, 2016-2020" highlights the following:
- Global OLED market size, shipment, capacity, competitive landscape during 2016-2020;
- Development of downstream applications such as mobile phone, TV, wearable device, PC, VR, illumination, auto display, and the demand for OLED during 2016-2020;
- Supply of OLED upstream material market;
- Development of global and Chinese OLED companies, covering operation, OLED capacity construction, investment plans, among others.

Contents:

1 OLED Overview
   1.1 Introduction
      1.1.1 Overview
      1.1.2 Origin
      1.1.3 Features
   1.2 Classification
   1.3 Applications
   1.4 Industry Chain

2 OLED Market
   2.1 Market Overview
   2.2 Global Market
      2.2.1 Market Size
      2.2.2 Shipment
   2.3 Chinese Market
      2.3.1 Status Quo of the Market
      2.3.2 Policy Environment
      2.3.3 Patents

3 Competitive Landscape of Global OLED Market
   3.1 Market Share
   3.2 Companies' Layout
   3.3 Production Capacity
   3.4 Production Costs

4 OLED Applied Markets
   4.1 Mobile Phone
      4.1.1 Global
      4.1.2 China
   4.2 TV
   4.3 Wearable Device
   4.4 Computer
   4.5 VR
   4.6 Illumination
   4.7 Automotive Display
      4.7.1 Overall Market
      4.7.2 OLED Market
      4.7.3 Competition Pattern

5 OLED Upstream Materials Market
   5.1 Industry Chain
   5.2 Suppliers of Raw Materials
   5.3 Core Taches of OLED
      5.3.1 Intermediate Materials
      5.3.2 Terminal Materials

6 OLED Vendors
   6.1 Samsung Display
      6.1.1 Profile
      6.1.2 Operation
      6.1.3 OLED Business
   6.2 LG Display
      6.2.1 Profile
      6.2.2 Operation
6.2.3 OLED Business
6.2.4 Business in China
6.3 Japan Display Inc. (JDI)
6.3.1 Profile
6.3.2 Operation
6.3.3 OLED Business
6.3.4 Business in China
6.4 Hon Hai Technology
6.4.1 Profile
6.4.2 Operation
6.4.3 OLED Business
6.5 AUO
6.5.1 Profile
6.5.2 Operation
6.5.3 OLED Business
6.6 BOE
6.6.1 Profile
6.6.2 Operation
6.6.3 OLED Business
6.7 CSOT
6.7.1 Profile
6.7.2 OLED Business
6.8 RiTdisplay
6.8.1 Profile
6.8.2 Operation
6.8.3 OLED Business
6.9 Visionox
6.9.1 Profile
6.9.2 OLED Business
6.10 Truly Group
6.10.1 Profile
6.10.2 Operation
6.10.3 OLED Business
6.11 Sichuan CCO Display Technology
6.11.1 Profile
6.11.2 OLED Business
6.12 Sino Wealth Electronic
6.12.1 Profile
6.12.2 Operation
6.12.3 OLED Business
6.13 O-Film Tech
6.13.1 Profile
6.13.2 Operation
6.13.3 OLED Business
6.14 EverdisplayOptronics
6.14.1 Profile
6.14.2 OLED Business
6.15 Tianma Micro-electronics
6.15.1 Profile
6.15.2 Operation
6.15.3 OLED Business
6.16 Innolux
6.16.1 Profile
6.16.2 Operation
6.16.3 OLED Business

7 Summary and Forecast
7.1 Market Size
7.2 Market Features
7.3 Development Trend

List of Charts
- Development History of LCD and OLED
- Classification of OLED Devices
- PMOLED Drive Principle
- AMOLED Drive Principle
- Major Enterprises in OLED Industry Chain
- Major Companies of OLED Drive IC
- Major Manufacturers in OLED Industry Chain
- Performance Comparison between OLED and TFT LCD
- Development Orientation of Display Screens for TV, Computer and Mobile Phone
- Global OLED Market Size, 2014-2020E
- Global OLED Shipment Area, 2004-2020
- Shipment Area of Global OLED Panels, 2014-2019E
- Shipment of Global OLED Panels, 2015-2020E
- Distribution of OLED Panel Applications Worldwide (by Shipment), 2015-2020E
- Quantity of OLED Patents Applied by World's Top 10 Companies in China
- Quantity of OLED Patents Applied by Chinese Listed Companies
- Competition Pattern in Global OLED Panel Market, 2015
- Domestic Chinese Panel Manufacturers Get Involved in OLED Capacity Successively
- OLED Investment Plans of Japanese Manufacturers
- OLED Production Capacity Plan in China and the World, 2015-2017
- Price Comparison between TFT LCT TV and OLED TV
- Display Technologies Propels Changes in the Pattern of Smart Phones
- Shipment and Penetration of OLED Mobile Phones Worldwide, 2014-2020E
- Shipment of OLED Mobile Phones Worldwide, 2014-2020E
- Assembly Rate of Display Screens for Smart Phones in China, 2014-2020E
- Three Major Mobile Phone Brands with the Highest AMOLED Penetration in China, 2015
- Global OLED TV Sales Volume, 2014-2020E
- Key OLED TV Products in Chinese Market
- Global Shipment of OLED Panels for Wearable Devices, 2014-2020E
- OLED Screen of Notebook Computer
- Global Demand for PC OLED Screens, 2015-2020E
- Latest VR Products Adopting OLED Technologies
- VR Sales Volume Worldwide, 2016-2020E
- OLED Products of Major Companies in the World
- OLED Illumination Market Size Worldwide, 2016-2020E
- Auto Display Shipment Worldwide, 2013-2020E
- Distribution of Automotive Display Applications Worldwide, 2015-2020E
- Development Orientation of In-vehicle Display
- Auto OLED Display Market Size Worldwide, 2016-2020E
- Structure of LCD Industry Chain
- Structure of OLED Industry Chain
- Investment Opportunities Brought by OLED in New Chemical Materials
- Key Suppliers of Raw Materials for Samsung and LG
- Core Taches of OLED Upstream Materials
- Major Manufacturers of OLED Materials and Intermediates in China
- Key Suppliers of OLED Terminal Materials
- Market Share of Hole Injection Layer Material Suppliers in the World
- Market Share of Hole Transport Layer Suppliers in the World
- Market Share of Electron Transport Layer Suppliers in the World
- Revenue and Operating Income of Samsung Display, 2012-2016
- Financial Indices of LG Display, 2012-2016
- Revenue Structure of LG Display (by Application), 2015-2016
- Shipment of LG Display, 2015-2016
- Production Capacity of LG Display, 2015-2016
- LG Display's Plants in China
- Overseas Production Bases of Japan Display Inc.
- AUO's Turnover, 1999-2015
- Revenue, Net Income and Gross Margin of BOE, 2012-2016
- Operating Revenue and Gross Margin (by Business) of BOE, 2014-2015
- Operating Revenue and Gross Margin (by Region) of BOE, 2014-2015
- LCD Panel Production Lines of CSOT
- Major Products of RiTdisplay
- Revenue and Gross Margin of RiTdisplay, 2014-2015
- Revenue and Gross Profit of Truly, 2014-2016
- Revenue Breakdown of Truly, 2014-2015
- OLED Drive Chip Products of Sino Wealth Electronic
- Revenue, Net Income and Gross Margin of Sino Wealth Electronic, 2012-2016
- Revenue, Net Income and Gross Margin of O-Film Tech, 2012-2016
- Revenue Structure of O-Film Tech, 2015
- Revenue, Net Income and Gross Margin of Tianma, 2012-2016
- Revenue and Shipment of Innolux, 2014-2016
- Global OLED Market Size and Growth Rate, 2014-2020E

Ordering:

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.
