Risk Assessment and Business Impact Analysis using PMI and ISO/IEC 21500 Project Management Methodologies

Description: This webinar will explain how to properly use Project Management Principles to prepare for an adverse impact on your business. We will cover how to identify, analyze and document the events and environmental surroundings that can badly affect the organization. You will learn how to prepare and review the continuity planning program. Areas such as Project Management of IT Outsourcing and other risks will be covered. It is critical to assess the IT and Information Security risks and the effectiveness of the institution's risk management processes as they relate to the security measures.

Areas Covered:
- Program Management
- Risk Assessment
- Impact Analysis
- Strategic Planning
- Documenting
- Testing
- Maintenance

Why Should you Attend:
Most of the companies are prepared in respect to impact from disasters and yet many banks have suffered major outages due to disasters such as fires, floods, terrorism, security breaches and more.

A disruption on your business can impact the following areas:
- Loss of assets: key personnel, physical assets, information assets, intangible assets
- Disruption to the continuity of service and operations
- Violation of law/regulation
- Public perception
- Financial
- Customers and suppliers
- Public relations/credibility
- Legal
- Regulatory requirements/considerations
- Environmental
- Operational Personnel

Topic Background:
Planning without knowing the Risks and Impacts is a waste of time. Yet, many companies do not know how to properly conduct risks and impact assessments.
