Global Excavator Market By Type, By Region, Competition Forecast & Opportunities, 2011-2021

Description:
“Global Excavator Market By Type (Mini vs. Heavy and Crawler vs. Wheeled), By Region (Asia-Pacific, North America, South America, Europe and Rest of World), Competition Forecast & Opportunities, 2011-2021”

Excavators are widely used in commercial and residential construction, mining sector, sewage disposal, etc., across the globe. Global sales of excavators witnessed a decline during 2011-2015 due to slump in crude oil prices post 2013, which significantly impacted the economies of oil dependent countries, and thereby, restricted growth of construction sector in these countries.

Moreover, several major developing countries such as Russia and China have been facing unfavorable geopolitical and economic conditions over the last few years, which has also been negatively impacting the global excavator market. However, anticipated recovery in the global construction sector and stabilization of crude oil prices is forecast to drive demand for excavators across the globe in the coming years.

According to the research report, “Global Excavator Market By Type (Mini vs. Heavy and Crawler vs. Wheeled), By Region, Competition Forecast & Opportunities, 2011-2021”, global excavator market is forecast to grow at a CAGR of over 6% during 2016-2021, predominantly on account of increasing investments in infrastructure sector.

In 2015, Asia-Pacific dominated the global excavator market due to high demand from China, Japan and India. Over the next five years, the global excavator market is expected to witness increase in competition due to implementation of new emission norms, which is also expected to create new market opportunities.

Few of the leading players operating in global excavator market include Caterpillar, Komatsu, Hitachi Construction Machinery and Volvo Construction Equipment.

“Global Excavator Market By Type (Mini vs. Heavy and Crawler vs. Wheeled), By Region, Competition Forecast & Opportunities, 2011 - 2021” report elaborates following aspects of the global excavator market:

- Global Excavator Market Size, Share & Forecast
- Segmental Analysis - By Type (Mini vs. Heavy and Crawler vs. Wheeled)
- Regional Analysis - Asia-Pacific, North America, South America, Europe and Rest of World
- Policy & Regulatory Landscape
- Changing Market Trends and Emerging Opportunities
- Competitive Landscape and Strategic Recommendations

Why You Should Buy This Report?

- To gain an in-depth understanding of the global excavator market
- To identify the on-going trends and segment wise anticipated growth in the coming years
- To help industry consultants, excavator companies and other stakeholders to align their market-centric strategies
- To obtain research based business decision and add weight to presentations and marketing material
- To gain competitive knowledge of leading players
- To avail 10% customization in the report without any extra charges and get research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based on both primary and secondary sources. Primary research included interviews with excavator manufactures, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
