Continuous Peripheral Nerve Block Catheter Market: Global Industry Analysis and Opportunity Assessment, 2016-2026

Description: This report examines the 'Continuous Peripheral Nerve Block Catheter Market' for the period 2016-2026. The primary objective of the report is to offer updates and in-depth analysis of market opportunities in the global continuous peripheral nerve block catheter market.

Continuous peripheral nerve block is executed by percutaneous insertion of catheter, adjacent to peripheral nerve to administer target specific analgesia for various surgeries. Popularity of continuous peripheral nerve blockade has grown over recent years due to benefits on offer such as reduced hospital stay and cost effectiveness.

Continuous peripheral nerve block catheter provides prolonged nerve blockade by blocking nerve for over 24 hours. Catheter insertion can be accomplished using possible modalities including nerve stimulation and ultrasound guided technique. Equipment available in the market for this technique has improved considerably over the past year with increased safety and efficacy features.

Continuous peripheral nerve block catheter market is mainly driven by the increasing number of trauma cases, thereby leading to increase in adoption of continuous peripheral nerve block technique for pain management. Continuous peripheral nerve block catheter is increasingly used for administration of analgesia post upper/lower extremity surgeries which is a cost effective method for pain management as compared to opioids.

The continuous peripheral nerve block catheter market is expected to grow significantly in terms of revenue over the forecast period owing to increasing availability of technologically advanced treatment options across the globe, especially in developed countries. In this report, the continuous peripheral nerve block catheter market is segmented on the basis of product type, insertion technique, indication, end user and region.

The report offers global market forecast in terms of value and volume for the following 10 years.

Product types covered in the report include:

- Stimulating Catheter Systems
- Open Tip Catheter Stimulating Catheter Systems
- Closed Tip Catheter Stimulating Catheter Systems
- Non-Stimulating Catheter Systems
- Open Tip Catheter Non-Stimulating Catheter Systems
- Closed Tip Catheter Non-Stimulating Catheter Systems
- Over-The-Needle Catheter System

To understand and assess opportunities in this market, the report is categorically split under five sections: by product type, insertion technique, indication, end user and region. The report analyses the global continuous peripheral nerve block catheter market in terms of market value (US$ Mn).

On the basis of insertion technique, the global continuous peripheral nerve block catheter market is segmented into:

- Nerve Stimulation Based Insertion
- Ultrasound Based Insertion

On the basis of indication, the global continuous peripheral nerve block catheter market is segmented into:

- Trauma Cases
- Upper Extremity Surgeries
- Lower Extremity Surgeries
- Pain Management
- Other Indications

On the basis of end user, the global continuous peripheral nerve block catheter market is segmented into:

- Hospitals
- Ambulatory Surgical Centres

The report starts with an overview of continuous peripheral nerve block catheter. In the same section, the author covers the continuous peripheral nerve block catheter market performance in terms of revenue. This section includes analysis of key trends, drivers and restraints from the economic and supply & demand perspectives.

The following section analyses the market on the basis of region and presents the forecast in terms of value for the following 10 years. Regions covered in the report are as follows:

- North America
- Western Europe
- Eastern Europe
- Latin America
- Middle East & Africa
- Asia Pacific excluding Japan (APEJ)
- Japan

To arrive at the market size, the report considers average price of continuous peripheral nerve block catheter (stimulating catheter systems, non-stimulating catheter systems and over-the-needle catheter systems) across geographies. The forecast presented here assesses total revenue of the global continuous peripheral nerve block catheter market.

When developing the forecast of the market, the starting point involves sizing the current market, which forms the basis for the forecast of how the market is anticipated to take shape in the near future. Given the characteristics, we triangulated the outcome on the basis of analysis based on supply and demand sides. However, quantifying the market across the aforementioned segments and regions is more a matter of quantifying expectations and identifying opportunities rather than rationalising them after the forecast has been completed.

The report also takes into consideration Year-on-Year (Y-o-Y) growth rates, to understand the predictability of the market and identify the right opportunities in the continuous peripheral nerve block catheter market.

As previously highlighted, the market for continuous peripheral nerve block catheter is split into various categories on the basis of region, product type, insertion technique, indication and end user. All these segments have been analysed in terms of Basis Point Share (BPS) to understand individual segment's relative contribution to the market growth. This detailed level of information is important for identification of various key trends in the continuous peripheral nerve block catheter market.

Another key feature of this report is the analysis of continuous peripheral nerve block catheter market, by region, product type, insertion technique, indication and end user, and its revenue forecast in terms of absolute dollar. This is traditionally overlooked while forecasting the market. However, absolute dollar opportunity is critical for assessing the level of opportunity that a provider can look to achieve, as well as to identify potential resources from a sales perspective in the global continuous peripheral nerve block catheter market.

Furthermore, the author has developed the continuous peripheral nerve block catheter market's 'Attractiveness Index', which has been represented by for all five categories: product type, insertion technique, indication, end user and regions. The resulting index is expected to help providers identify real market opportunities.

In the final section of the report, the continuous peripheral nerve block catheter market landscape is included to provide report audiences with a dashboard view on the basis of categories of providers across the market, their presence in continuous peripheral nerve block catheter market and key differentiators. Key market participants included in the report include B. Braun Melsungen AG, Teleflex Incorporated, Halyard Health, Inc., Ambu A/S, Epimed International Inc. and Pajunk GmbH.

These players have been profiled on the basis of various attributes such as company overview, recent
developments, growth strategies, sustainability and financial overview.

Contents:

1. Assumptions and Acronyms Used
2. Research Methodology
3. Executive Summary
4. Continuous Peripheral Nerve Block Catheter Market Overview
   4.1. Introduction
   4.1.1. Continuous Peripheral Nerve Block Catheter Market Taxonomy
   4.2. Continuous Peripheral Nerve Block Catheter Market Dynamics
   4.2.1. Drivers
   4.2.2. Restraints
   4.2.3. Opportunity
   4.2.4. Trends
   4.2.5. Regulation

5. Global Continuous Peripheral Nerve Block Catheter Market Analysis, By Product Type
   5.1. Introduction
   5.1.1. Y-o-Y Growth Comparison, By Product Type
   5.1.2. Market Share & Basis Point (BPS) Analysis, By Product Type
   5.1.3. Market Attractiveness Analysis, By Product Type
   5.2. Market Value and Volume Forecast, By Product Type
   5.2.1. Stimulating Catheter Systems
      5.2.1.1. Absolute $ Opportunity
      5.2.1.2. Market Value Forecast
      5.2.1.3. Open Tip Catheter Systems
      5.2.1.4. Closed Tip Catheter Systems
   5.2.2. Non-stimulating Catheter Systems
      5.2.2.1. Absolute $ Opportunity
      5.2.2.2. Market Value Forecast
      5.2.2.3. Open Tip Catheter Systems
      5.2.2.4. Closed Tip Catheter Systems
   5.2.3. Over-The-Needle Catheter System
      5.2.3.1. Absolute $ Opportunity
      5.2.3.2. Market Value Forecast

6. Global Continuous Peripheral Nerve Block Catheter Market Analysis, By Insertion Technique
   6.1. Introduction
   6.1.1. Y-o-Y Growth Comparison, By Insertion Technique
   6.1.2. Market Share & Basis Point (BPS) Analysis, By Insertion Technique
   6.1.3. Market Attractiveness Analysis, By Insertion Technique
   6.2. Market Forecast, By Insertion Technique
   6.2.1. Nerve Stimulation Based Insertion
      6.2.1.1. Absolute $ Opportunity
      6.2.1.2. Market Value Forecast
   6.2.2. Ultrasound Based Insertion
      6.2.2.1. Absolute $ Opportunity
      6.2.2.2. Market Value Forecast

7. Global Continuous Peripheral Nerve Block Catheter Market Analysis, By Indication
   7.1. Introduction
   7.1.1. Y-o-Y Growth Comparison, By Indication
   7.1.2. Market Share & Basis Point (BPS) Analysis, By Indication
   7.1.3. Market Attractiveness Analysis, By Indication
   7.2. Market Forecast, By Indication
   7.2.1. Trauma Cases
      7.2.1.1. Absolute $ Opportunity
   7.2.2. Upper Extremity Surgeries
      7.2.2.1. Absolute $ Opportunity
7.2.2.2. Market Value Forecast
7.2.3. Lower Extremity Surgeries
7.2.3.1. Absolute $ Opportunity
7.2.3.2. Market Value Forecast
7.2.4. Pain Management
7.2.4.1. Absolute $ Opportunity
7.2.4.2. Market Value Forecast
7.2.5. Other Indications
7.2.5.1. Absolute $ Opportunity
7.2.5.2. Market Value Forecast

8. Global Continuous Peripheral Nerve Block Catheter Market Analysis, By End User
8.1. Introduction
8.1.1. Y-o-Y Growth Comparison, By End User
8.1.2. Market Share & Basis Point (BPS) Analysis, By End User
8.1.3. Market Attractiveness Analysis, By End User
8.2. Market Forecast, By End User
8.2.1. Hospitals
8.2.1.1. Absolute $ Opportunity
8.2.1.2. Market Value Forecast
8.2.2. Ambulatory Surgical Centers
8.2.2.1. Absolute $ Opportunity
8.2.2.2. Market Value Forecast

9. Global Continuous Peripheral Nerve Block Catheter Market Analysis, By Region
9.1. Introduction
9.1.1. Y-o-Y Growth Projections, By Region
9.1.2. Market Share & Basis Point (BPS) Analysis, By Region
9.1.3. Regional Attractiveness Analysis
9.2. Market Forecast, By Region
9.2.1. North America Market Value Forecast
9.2.2. Latin America Market Value Forecast
9.2.3. Europe Market Value Forecast
9.2.4. Eastern Europe Market Value Forecast
9.2.5. APEJ Market Value Forecast
9.2.6. Japan Market Value Forecast
9.2.7. MEA Market Value Forecast

10. North America Continuous Peripheral Nerve Block Catheter Market Analysis
10.1. Market Value Forecast, By Country
10.1.1. Y-o-Y Growth Projections, By Country
10.1.2. Market Share & Basis Point (BPS) Analysis, By Country
10.1.3. Market Attractiveness Analysis, By Country
10.1.4. US
10.1.5. Canada
10.2. Market Value and Volume Forecast, By Product Type
10.2.1. Y-o-Y Growth Projections, By Product Type
10.2.2. Market Share & Basis Point (BPS) Analysis, By Product Type
10.2.3. Market Attractiveness Analysis, By Product Type
10.2.4. Stimulating Catheter Systems
10.2.4.1. Open Tip Catheter Systems
10.2.4.2. Closed Tip Catheter Systems
10.2.5. Non-stimulating Catheter Systems
10.2.5.1. Open Tip Catheter Systems
10.2.5.2. Closed Tip Catheter Systems
10.2.6. Over-The-Needle Catheter System
10.3. Market Value Forecast, By Insertion Technique
10.3.1. Y-o-Y Growth Projections, By Insertion Technique
10.3.2. Market Share & Basis Point (BPS) Analysis, By Insertion Technique
10.3.3. Market Attractiveness Analysis, By Insertion Technique
10.3.4. Nerve Stimulation Based Insertion
10.3.5. Ultrasound Based Insertion
10.4. Market Value Forecast, By Indication
10.4.1. Y-o-Y Growth Projections, By Indication
10.4.2. Market Share & Basis Point (BPS) Analysis, By Indication
10.4.3. Market Attractiveness Analysis, By Indication
10.4.4. Trauma Cases
10.4.5. Upper Extremity Surgeries
10.4.6. Lower Extremity Surgeries
10.4.7. Pain Management
10.4.8. Other Indications
10.5. Market Value Forecast, By End User
10.5.1. Y-o-Y Growth Projections, By End User
10.5.2. Market Share & Basis Point (BPS) Analysis, By End User
10.5.3. Market Attractiveness Analysis, By End User
10.5.4. Hospitals
10.5.5. Ambulatory Surgical Centers
10.6. Regional Trends

11. Latin America Continuous Peripheral Nerve Block Catheter Market Analysis
