India Naphthalene and PCE based Admixtures Market By Type, Competition Forecast and Opportunities, 2011-2021

Description: "India Naphthalene and PCE based Admixtures Market By Type (Polycarboxylate Ether, and Sulphonated Naphthalene Formaldehyde (SNF) and Sulphonated Melamine Formaldehyde (SMF)), Competition Forecast and Opportunities, 2011-2021"

Concrete admixtures are added to construction materials to alter and improve their chemical and physical properties. Concrete admixtures provide strength and durability to buildings and significantly reduce water to cement ratio. Polycarboxylate ether based admixtures, and sulphonated naphthalene formaldehyde condensates (SNF) and sulphonated melamine formaldehyde condensates (SMF) concrete admixtures are the most widely used concrete admixtures in India.

Increasing construction activities on account of huge public and private investments in construction sector is forecast to drive demand for concrete admixtures in India during 2016 - 2021. Moreover, adoption of various policies by the Government of India for infrastructure development such as Smart Cities Mission, AMRUT Mission and Pradhan Mantri Gram Sadak Yojna are further expected to boost demand for naphthalene and PCE based admixtures in the country through 2021.

According to "India Naphthalene and PCE based Admixtures Market By Type, Competition Forecast & Opportunities, 2011-2021", naphthalene and PCE based admixtures market in India is poised to surpass US$ 683 million by 2021, on account of growing demand for durable structures in infrastructure and real estate sectors. Additionally, surging demand for commercial spaces and multi-storey residential buildings is increasing demand for naphthalene and polycarboxylate based admixtures in the country.

In 2015, polycarboxylate based concrete admixtures dominated India concrete admixtures market owing to their compatibility with different grades of concrete, and ability to impart high strength and durability to buildings as compared to other concrete admixtures available in the market. Few of the leading players in India naphthalene and PCE based admixtures market include BASF India, Sika India and Fosroc.

"India Naphthalene and PCE based Admixtures Market By Type, Competition Forecast & Opportunities, 2011-2021” report elaborates following aspects related to naphthalene and PCE based admixtures market in India:

- India Naphthalene and PCE based Admixtures Market Size, Share & Forecast
- Segmental Analysis - By Type (Polycarboxylate Ether (PCE) and Sulphonated Naphthalene Formaldehyde (SNF) & Sulphonated Melamine Formaldehyde (SMF))
- Policy & Regulatory Landscape
- Changing Market Trends & Emerging Opportunities
- Competitive Landscape & Strategic Recommendations

Why You Should Buy This Report?

- To gain an in-depth understanding of India naphthalene and PCE based admixtures market
- To identify the on-going trends and anticipated growth in the next five years
- To help industry consultants, admixture manufacturers, vendors and dealers align their market-centric strategies
- To obtain research based business decisions and add weight to presentations and marketing material
- To gain competitive knowledge of leading market players
- To avail of 10% customization in the report without any extra charges and get research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary sources. Primary research included interviews with naphthalene and polycarboxylate (PCE) admixtures suppliers and industry experts. Secondary research included an exhaustive search of relevant publications such as company annual
reports, financial reports and other proprietary databases.

Contents:

1. Product Overview
2. Research Methodology
3. Analyst View
4. India Construction Chemicals Market Overview
5. India Cement Market Overview
6. India Concrete Admixtures Market Outlook
   6.1. Market Size & Forecast
      6.1.1. By Value
      6.1.2. By Volume
   6.2. Market Share & Forecast
      6.2.1. By Type (Polycarboxylate Ether (PCE) and Sulphonated Napthalene Formaldehyde (SNF) & Sulphonated Melamine Formaldehyde (SMF))
      6.2.2. By Region
      6.2.3. By Company
7. India Concrete Admixtures Market Attractiveness Index Analysis
8. India Polycarboxylate Ether Concrete Admixtures Outlook
   8.1. Market Size & Forecast
      8.1.1. By Value
      8.1.2. By Volume
   8.2. Market Share & Forecast
      8.2.1. By End User (Infrastructure & Real Estate)
      8.2.2. By Company
9. India SMF & SNF Concrete Admixtures Outlook
   9.1. Market Size & Forecast
      9.1.1. By Value
      9.1.2. By Volume
   9.2. Market Share & Forecast
      9.2.1. By End User (Infrastructure & Real Estate)
      9.2.2. By Company
10. List of Major Importers/Distributors
11. Import-Export Analysis
12. Market Dynamics
   12.1. Drivers
   12.2. Challenges
13. Market Trends & Developments
   13.2. Increasing Government Initiatives
   13.3. Rising FDI Investments in Construction Sector
   13.4. Utilization of Sustainable Concrete Admixtures
   13.5. Expanding Concrete Admixtures Production Capacity
14. Policy & Regulatory Landscape
15. India Economic Profile
16. Competitive Landscape
   16.1. Sika India Private Limited
   16.2. BASF India Ltd.
16.3. Fosroc Chemicals India Private Limited
16.4. CICO Technologies Limited
16.5. Chryso India
16.6. Chembond Chemicals Ltd.
16.7. W. R. Grace & Co. India Pte. Limited
16.8. Mapei Construction Products India Pvt Ltd.
16.9. Rossari Biotech Ltd.
16.10. Choksey Chemicals Pvt Ltd

17. Strategic Recommendations
