Global Market Study on Polycaprolactone: Demand for Environment-Friendly Packaging Materials, Catalyzed the Polycaprolactone Market

Description: This report examines the ‘Global polycaprolactone” market for the forecast period 2015 - 2021. The primary objective of the report is to identify opportunities in the market and present updates and insights, pertaining to various segments of the global polycaprolactone market.

Polycaprolactone is a fossil-based biodegradable, semi-crystalline biodegradable polyester. Polycaprolactone is majorly used for TPU (Thermoplastic polyurethane) and in healthcare applications. It is classified on the basis of product type as pellet form, nanosphere and microsphere. The majority of the polycaprolactone produced is sold in the form of pellets. The nanosphere and microsphere forms of polycaprolactone are used in healthcare applications.

To understand and assess the opportunities in this market, the report is categorically divided into three sections i.e. by product type, application and region. The report analyses the global polycaprolactone market in terms of market value (US$ Mn) and volume (MT).

The report begins with an overview of the global polycaprolactone market, appraising market performance in terms of revenue and volume, followed by analysis of key trends, drivers, and restraints witnessed in the global market. Key trends specific to different geographies are also included in the report to equip the client with crystal clear decision-making insights.

The subsequent sections analyses the polycaprolactone market as per product type and application, and presents a forecast for the period 2015 - 2021

Product Types assessed in the report includes:
- Pellet
- Microsphere
- Nanosphere

Applications assessed in the report includes:
- TPU
- Healthcare
- Drug delivery
- Wound care management
- Sutures
- Wound dressing tape
- Tissue engineering
- Orthopaedic
- Dental implants
- Others

Regions assessed in the report include:
- Asia Pacific
- Europe
- North America
- Latin America
- The Middle East & Africa

To arrive at market size, the report considers various aspects based on secondary research. Furthermore, data points such as regional split and market split, by product type and application, and qualitative inputs from primary respondents have been incorporated to arrive at appropriate market estimates. The forecast presented in the report assesses the total revenue generated by the global polycaprolactone market.

When developing the market forecast, the report begins with sizing the current market, which forms the basis for forecasting how the market is anticipated to take shape in the near future. Given the characteristics of the market, PMR triangulates the data via the different analysis based on the supply side, demand side,
and dynamics of the polycaprolactone market. However, quantifying the market across the above-mentioned segments and regions is more a matter of quantifying expectations and identifying opportunities rather than rationalizing them after the forecast has been completed.

It is imperative to note that in an ever-fluctuating global economy, we not only conduct forecasts in terms of CAGR but also analyse on the basis of key parameters, such as Year-on-Year (Y-o-Y) growth, to understand the predictability of the market and to identify the right opportunities.

Another key feature of this report is the analysis of polycaprolactone market and the corresponding revenue forecast in terms of absolute dollar opportunity. This is traditionally overlooked while forecasting the market. However, absolute dollar opportunity is critical in assessing the level of opportunity that a provider can look to achieve, as well as to identify potential resources from a sales perspective of the global polycaprolactone market.

To understand key segments in terms of their growth and performance in the polycaprolactone market, a market attractiveness index was developed. The resulting index should help providers identify existing market opportunities in the global polycaprolactone market.

In the final section of the report, polycaprolactone market, the competitive landscape is included to provide a dashboard view of companies that manufacture and supply polycaprolactone. The report contains company profiles of some of the major players operating in the global polycaprolactone market.

Some market players feature in this report include:
Perstorp Holdings A.B.
BASF SE
Diacel Corporation
Sigma-Aldrich Corp.
Durect Corporation
Corbion Purac
Shenzen Esun
Hihang Industries Co., Ltd.

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
