Top Growth Segments: North America ATM Market (2016 - 2022)

Description: An Automatic Teller Machine (ATM) is a machine which enable people to withdraw cash from individual bank accounts. Introduced in the developed countries during the late 1970s, ATM machines were considered to be nothing more than cash dispensers, which customers could use to withdraw cash and receive details of their bank accounts.

Incorporation of the wireless communicating devices with ATM machines would eventually cut down instance of the number of ATM card frauds arising from card skimming and logical or data hacking. Also, the feature of Smart ATM to dispense any denomination would have a very strong and positive influence both in the developed as well as emerging countries.

Deployment Solutions are the major revenue contributor in ATM market. However, there is a significant scope for business opportunities in Worksite and Mobile ATM segment. These two segments are growing with the highest growth rates.

In 2015, Mobile ATM grew with the highest growth rate for period 2012 - 2015. The segment has registered revenue of USD 225.5 million in 2015. The Worksite segment is expected to attain a market size of USD 650.3 million by 2022 experiencing a high growth rate during the forecast period.

Further, in terms of ATM types, the White label ATMs, Smart ATMs market segment are expected to grow at the high growth rates thereby offering huge business opportunities as compared to the other ATM types including conventional bank ATMs, brown label ATMs and cash dispenser ATMs.
