
Description: Increased mobile marketing by marketers and application developers, growth in mobile payment and mobile banking applications, ability to receive messages without data connection, and rapid increase in mobile subscriber base are some of the driving forces of the premium A2P and P2A messaging market.

“Among the applications, CRM services to have the maximum market size during the forecast period” CRM services segment among the applications is expected to hold the largest market share during the forecast period 2016 to 2021 as they are used to offer billing and transaction related information to the customers. This growth is primarily driven by the growth in the eCommerce and Banking, Financial Services, and Insurance (BFSI) industries.

“Retail and eCommerce vertical is expected to dominate the premium A2P and P2A messaging market during the forecast period” Premium A2P and P2A messaging services have been used across various industry verticals, including government, BFSI, IT & telecom, healthcare, travel & tourism, retail & eCommerce, and others. The retail and eCommerce vertical is expected to hold the largest market share during the forecast period owing to constant growth in the number of internet users, proliferation of smartphones, and the increasing number of tech-savvy consumers.

“Asia-Pacific (APAC) is expected to grow at the highest rate during the forecast period” APAC is expected to hold the largest market share in the premium A2P and P2A messaging market during the forecast period 2016 to 2021. This is due to the large-scale acceptance of premium A2P and P2A messaging services by the enterprises. The increasing developments in regulations and technologies are benefiting all the stakeholders present in the premium A2P and P2A messaging market ecosystem and a huge number of mobile subscribers base present in this region.
