Global Hair and Body Mist Market 2016-2020

Description: About Global Hair and Body Mist Market

The global hair and body mist market will grow at a gradual rate over the forecast period. Although the market will be affected by a slowdown in demand in key countries like the US, Germany, the UK, France, Italy, Spain, and Japan as they near maturity, this will be offset by a strengthening of demand in developing countries such as Brazil, India, Malaysia, and China. The growth potential is higher in these emerging markets because of the increasing purchasing power of their growing middle-class population and high population density. More than one-and-a-half billion people in APAC will enter the middle-income class over the next ten years. Consumer purchasing power in the region is also increasing because of the rise in personal disposable income, which is growing at a rate much higher than that of developed countries. In 2015, personal annual disposable income increased by 7.01% in China and 8.61% in India, whereas it grew by 2.07% in Germany and 1.29% in France.

The analysts forecast the global hair and body mist market to grow at a CAGR of 7.92% during the period 2016-2020.
