Residential Construction in Japan to 2020: Market Forecast

Description: The 'Residential Construction in Japan to 2020: Market Forecast' contains detailed historic and forecast market value data for the residential construction industry, including a breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition). The databook provides historical and forecast valuations of the industry using the construction output and value-add methods.

Summary
This report is the result of extensive market research covering the residential construction industry in Japan. It contains detailed historic and forecast market value data for the residential construction industry, including a breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition). 'Residential Construction in Japan to 2020: Market Forecast' provides a top-level overview and detailed insight into the operating environment of the residential construction industry in Japan. It is an essential tool for companies active across the Japanese construction value chain and for new players considering to enter the market.

Scope
- Overview of the residential construction industry in Japan.
- Historic and forecast market value for the residential construction industry by construction output and value-add methods for the period 2011 through to 2020.
- Historic and forecast market value by construction activity (new construction, repair and maintenance, refurbishment and demolition) across the residential construction industry for the period 2011 through to 2020.

Reasons To Buy
- This report provides you with valuable data for the residential construction industry in Japan.
- This report provides you with a breakdown of market value by type of construction activity (new construction, repair and maintenance, refurbishment and demolition).
- This report enhances your knowledge of the market with key figures detailing market values using the construction output and value add methods.
- This report allows you to plan future business decisions using the forecast figures given for the market.

Contents:
1 Introduction
1.1 What is this Report About?
1.2 Definitions
1.3 Summary Methodology
2 Residential Construction: Category Data
2.1 Residential Construction Output: Historic Market Value
2.2 Residential Construction Output: Historic Market Value by Cost Type
2.3 Residential Construction Output: Forecast Market Value
2.4 Residential Construction Output: Forecast Market Value by Cost Type
2.5 Residential Construction Value Add: Historic Market Value
2.6 Residential Construction Value Add: Forecast Market Value
3 Residential Construction: Activity Analysis
3.1 New Construction Output
3.2 New Construction Output by Cost Type
3.3 New Construction Output Forecast
3.4 New Construction Output Forecast by Cost Type
3.5 Repair & Maintenance Output
3.6 Repair & Maintenance Output by Cost Type
Table 53: Japanese Single-Family Housing Construction, Repair & Maintenance Output (JPY Million) by Cost Type, 2015-2020
Table 54: Japanese Single-Family Housing Construction, Refurbishment Output, 2011-2015
Table 55: Japanese Single-Family Housing Construction, Refurbishment Output (US$ Million) by Cost Type, 2011-2015
Table 56: Japanese Single-Family Housing Construction, Refurbishment Output (JPY Million) by Cost Type, 2011-2015
