Murata SAW Thermo-Compensated Band 8 Filter In Low Band Front-End Module

Description: In Front-End Filter Market, Murata all along with Broadcom Limited, Qorvo and Skyworks share the leadership in RF components. The company has forged its empire on ceramic passive electronic components and ceramic filter. Today, this old but effective technology is still used. The last acquisition of Peregrine Semiconductor specialized in RF CMOS, allows Murata to enter into the smartphone market. The last one to integrate the front-end module from Murata is Samsung in his last Flagship, the Galaxy S7 with the FAJ15. The module features Murata's thermo-compensated technology.

The Front end module is located on the main board of the smartphone. Samsung has proposed different configuration of its LTE front end part. The FAJ15 from Murata was only found in US version of the Galaxy S7. It shared the front end part with Qorvo, and Broadcom.

The FAJ15 is dedicated to LTE Low band. It is made with several filter dies, assembled on a ceramic substrate. The filters are either bare dies or packages molded into FEM molding. As piezoelectric for SAW technology, the substrate dies are either LN (Lithium Nobium oxide) or LT (Lithium Tantalum oxide). The FEM contains two SAW technology: STD-SAW (Standard SAW) and TC-SAW (Thermally Compensated SAW). The report only focused on the duplexer for Band 8 LTE integrated in the FEM. The specification of this band required very low thermal drift. Thus thermo-compensated layers are integrated to provide better performance towards thermal changes.

Complete chip fabrication processes and cost estimation of the Band 8 component are presented in the report and also a quick comparison on substrate packaging with Qorvo's and Broadcom's FEM.

Contents:

1. Overview / Introduction
2. Company Profile & Supply Chain
3. Samsung Galaxy S7 Teardown
4. Physical Analysis
   - Physical Analysis Methodology
   - Front-End Module Package
   - Front-End Module Views
   - Front-End Module Cross-Section
   - Front-End Module Dies
   - Power Amplifier Die View & Dimensions
   - SPDT Switch Die View & Dimensions
   - Band 8 Duplexer - SAW filter Dies View & Dimensions
   - Band 8 Duplexer - SAW filter Dies Opening
   - Band 8 Duplexer - SAW filter Dies Cross-section
5. Manufacturing Process Flow
   - SAW Fabrication unit
   - SAW wafer process
   - Component Packaging
6. Cost Analysis
   - SAW Filter Wafer Front-End Cost
   - SAW Filter Wafer Front-End Cost per process
   - SAW Filter Front-End Probe Test, Thinning & Dicing Cost
   - SAW filter Die Cost
- Package Cost analysis
- Estimated Selling Price

7. Comparison of substrate packaging of Qorvo's and Broadcom's FEM

Ordering:

Order Online - [http://www.researchandmarkets.com/reports/3961303/](http://www.researchandmarkets.com/reports/3961303/)

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name:  Murata SAW Thermo-Compensated Band 8 Filter In Low Band Front-End Module
Web Address:  http://www.researchandmarkets.com/reports/3961303/
Office Code:  SC2GJBI

Product Format
Please select the product format and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
<th>PDF and Excel - Enterprisewide:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>USD 3332</td>
</tr>
</tbody>
</table>

* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title:  Mr  Mrs  Dr  Miss  Ms  Prof

First Name: __________________________ Last Name: __________________________

Email Address: * __________________________

Job Title: __________________________

Organisation: __________________________

Address: __________________________

City: __________________________

Postal / Zip Code: __________________________

Country: __________________________

Phone Number: __________________________

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

<table>
