Global Medical/Hospital Beds Market Outlook: 2016-2021

Description:
A hospital bed can make huge difference when it comes to quick recovery of the patient in the hospital as well as in home care. Comfort, better positioning, improved circulation, safety features, and ease of care giving makes the hospital beds essential in delivering many types of health care.

Each department in hospital caters the different types of patient with different healthcare requirements which results in the need of different kinds of medical supplies including different kinds of beds. These beds comes with various features which are an important aspect of healthcare since requirement of patients tends to differ, for instance, many patients require a flat, level surface to sleep. While awake, many patients require head elevation, or foot elevation and often elevation in the knee area for comfort or for therapy.

The research report titled “Global Hospital Beds Market Outlook: 2016-2021” provides in-depth analysis of hospital bed market in four major geographies with country level analysis and emphasizes on the current market trends, market size, market share, recent developments, and forecast till 2021. The study offers a comprehensive analysis of hospital beds market with respect to its area of use, type of care, technology, ends user, and geography.

The global hospital beds market is anticipated to grow at a CAGR of 4.7% from 2016 to 2021 to reach $2357.1 million by 2021. Hospital beds market is primarily driven by growing ageing population across the globe. This segment of population is more susceptible to diseases which increases demand on public health system and on medical and social services forcing healthcare institutes to increase the number of beds in hospitals. Also, growing incidences of chronic disorders across the globe results in increased number of hospital admissions.

This aids in growing purchases of hospital beds by healthcare institutions to meet the rising influx of patients. However, the high cost associated with specialty beds such as bariatric, and critical care bed could restrict the growth of this market to a certain extent. Also, advancements in the pharmaceutical sectors lead to significant reduction in hospital admission which may impact this market in long run.

The report provides detailed analysis of major segments such as market by area of use, type of care, technology, and end users. Wherein, market by area of use is further sub segmented in critical care, bariatric, maternity, home care, long term care, and med-surge. While, market by type of care is sub segmented in curative care beds, psychiatric care beds, long-term care beds, and other beds. Hospital beds market by technology is segmented in manual bed, semi automatic bed, and fully automatic bed. While, market by end users is segmented in hospitals and clinics, elderly care settings, home care, and others.

Geographically, global hospital beds market is segmented into North America, Europe, Asia-Pacific, Latin America, and Middle East & Africa. These regions are further analyzed at a country level with a detailed qualitative and quantitative analysis.
