India Titanium Di-oxide Market Study, 2011-2025

Description:
Titanium Di-oxide is a white colour, non-flammable, thermally stable solid compound. It is an oxide of titanium metal and is naturally found in various types of mineral sands and rocks. Titanium is the ninth most commonly found element in earth's crust and is chemically inert in nature.

Significant growth in paints, textiles, rubbers and other manufacturing industries, coupled with rapid rise in urbanization and industrialization are the major factors that fueled India titanium di-oxide market over the past few years. Titanium di-oxide pigments are increasingly being utilized across various downstream industries, owing to their chemical properties such as high refractive index, high hiding power & opacity, low specific gravity and non-toxicity. Moreover, rising demand for efficient and bright pigment in paints, papers, textiles, cosmetics production industry are further expected to propel demand for titanium di-oxide in India in the coming years.

According to "India Titanium Di-oxide Market Study, 2011-2025" report studies the market size and share of various applications of the titanium di-oxide market in India during 2011-2025. In this study, the market has been categorized into four broader applications that include paints and varnishes, textiles, paper and cosmetics wherein paints and varnishes dominating the titanium di-oxide market over the past few years, whereas cosmetics application is projected to registered fastest growth during 2016-2025.

The market dynamics section of the report elaborates the factors that are driving the market as well as the challenges inhibiting growth. The research study also includes insights of the key market trends, a detailed analysis of the changing competitive landscape, and revenue forecasts for each segment and sub-segment.

All this information is provided to assist the established market players and new entrants in taking their strategic decisions, thereby aiding them in strengthening their market position in a highly competitive titanium di-oxide market in India.

"India Titanium Di-oxide Market Study, 2011-2025" report elaborates the following aspects of PVC market in India:
- India Titanium Di-oxide Market Size, Share & Forecast
- Segmental Analysis - By Application (Paints and Varnishes, Textiles, Paper and Cosmetics), By Region
- Market Attractiveness Index Analysis
- Competitive Analysis
- Leading Customers Analysis

Why You Should Buy This Report?
- To identify the on-going trends and anticipated growth in the next nine years
- To access industry data/statistics to make informed strategy decisions
- To gain competitive knowledge of leading market players

Key Questions This Study Will Answer
- What would be the segmental and regional growth trends in the India titanium di-oxide market in the coming years?
- What strategies should competitors implement to gain share in mature segments of the India titanium di-oxide market?

Report Methodology

The information contained in this report is based upon both primary and secondary sources. Primary research included interviews with titanium di-oxide manufacturers and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and other proprietary databases.
Contents:

1. Product Overview
2. Research Methodology
3. Executive Summary
4. India Titanium Di-oxide Production Outlook
5. India Titanium Di-oxide Market Outlook
   5.1. Market Size & Forecast
      5.1.1. By Value
      5.1.2. By Volume
   5.2. Market Share & Forecast
      5.2.1. By Application
      5.2.2. By Region
      5.2.3. By Company
6. India Titanium Di-oxide Market Attractiveness Index
7. Pricing Analysis
8. Import-Export Dynamics
9. Competitive Analysis
10. Customer Analysis (24 Customers)
    10.1. Supplier
    10.2. Procurement Price
    10.3. Quantity
11. About Us
