Mobile Enterprise Application Market by Software (Accounting & Finance, ERP, Communication & Collaboration, and CRM), Operating System (Android, iOS and Windows), Type of App, Organization Size, Industry Vertical and Region - Global Forecast to 2021

Description: “Boost in connectivity and productivity of both employees and enterprises is driving the growth of the mobile enterprise application market”

The mobile enterprise application market size is estimated to grow from USD 48.24 billion in 2016 to USD 98.03 billion by 2021, at a Compound Annual Growth Rate (CAGR) of 15.24% from 2016 to 2021. Increase in smartphone penetration, boost in connectivity and productivity of both employees and organizations, increasing demand for real-time information capture, and enterprises' continued focus to make their business processes mobile-ready due to increase in mobile workforce are some of the driving forces in the mobile enterprise application market. Difficulties in adoption of technology by ground level workforce and complexities in interoperability & cross-platform implementation would be the restraining factors for the mobile enterprise application market.

“Among the software, ERP software to have the maximum market size during the forecast period”

Enterprise Resource Planning (ERP) software segment among the software is expected to hold the largest market share during the forecast period 2016 to 2021 as it helps enterprises increase their operational efficiencies, improves communication and collaboration, anytime access to information, instant access to work center, and improves workforce productivity.

This growth is primarily driven by the growth in Banking, Financial and Insurance (BFSI), manufacturing & automotive, and energy & utilities industries.

“BFSI vertical is expected to dominate the mobile enterprise application market during the forecast period”

Mobile enterprise application services have been used across various industry verticals, including government, BFSI, manufacturing & automotive, healthcare & life sciences, education, and retail. The BFSI vertical is expected to hold the largest market share during the forecast period. Banks, insurance, and financial organizations use mobile enterprise apps to improve their employees' productivity and boost connectivity with clients and customers.

“Asia-Pacific (APAC) is expected to grow at the highest rate during the forecast period”

APAC is expected to hold the largest market share in the mobile enterprise application market during the forecast period 2016 to 2021. This is because of large scale acceptance of mobile enterprise application solution and services by the enterprises. There are several factors driving the impressive growth in the APAC region, such as rapid economic developments, globalization and foreign direct investments, increasing penetration of smartphones, and internet adoptions in workforce.

In the process of determining and verifying the market size for several segments and subsegments gathered through secondary research, extensive primary interviews were conducted with key people.

The break-up of profiles of primary participants is given below:
- By Company: Tier 1: 26%, Tier 2: 41%, and Tier 3: 33%
- By Designation: C level: 30%, Director level:20%, and Others: 50%
- By Region: North America: 33%, APAC: 50%, and Europe: 17%

Various key vendors profiled in the report are as follows:
1. IBM corporation (U.S.)
2. AT&T (U.S.)
3. Tata Consultancy Services (India)
4. Infosys Limited (India)
5. BlackBerry Limited (Canada)
6. SAP SE (Germany)
7. Salesforce.com, Inc. (U.S.)
8. Oracle Corporation (U.S.)
9. Capgemini (France)
10. Accenture (U.S.)
11. HCL Technologies (India)
12. Deloitte (U.S.)

Scope of the Report:
The report segments the mobile enterprise application market on the basis of software, which includes account & finance, ERP, communication & collaboration, Customer Relationship Management (CRM), mCommerce, business analytics, mobile learning, supply chain management, productivity tools, human capital management, and others (business processes, IT management, and sales force automation). It also segments the types of apps, such as native, hybrid & web; organization sizes comprises small and medium enterprises & large enterprises; operating systems include Android, iOS, Windows, and others (BlackBerry and Symbian); verticals such as BFSI, government, manufacturing & automotive, education, healthcare & life sciences, media & entertainment, energy & utility, retail, transportation & logistics, and others (oil & gas, real estate, and IT & Telecom); regions include North America, Europe, APAC, Middle East & Africa (MEA), and Latin America.

Reason to Buy the Report:
- To get a comprehensive overview of the global mobile enterprise application market
- To gain wide-ranging information about the top players in this market sphere, their product portfolios, and key strategies adopted by them
- To gain insights of the major countries/regions in which the mobile enterprise application market is flourishing in various industries

Contents:
1 Introduction
1.1 Objectives of the Report
1.2 Market Definition
1.3 Market Scope
1.3.1 Markets Covered
1.3.2 Years Considered in the Report
1.4 Currency
1.5 Limitations
1.6 Stakeholders

2 Research Methodology
2.1 Introduction
2.1.1 Secondary Data
2.1.1.1 Key Data from Secondary Sources
2.1.2 Primary Data
2.1.2.1 Key Data from Primary Sources
2.1.2.2 Key Industry Insights
2.1.2.3 Breakdown of Primaries
2.2 Market Size Estimation
2.2.1 Bottom-Up Approach
2.2.2 Top-Down Approach
2.3 Market Breakdown And Data Triangulation
2.4 Research Assumptions
2.4.1 Assumptions

3 Executive Summary

4 Premium Insights
4.1 Attractive Market Opportunities in the Mobile Enterprise Application Market
4.2 Mobile Enterprise Application Market, By Region, 2016 Vs. 2021
4.3 Mobile Enterprise Application Market, By Software, 2016-2021
4.4 Mobile Enterprise Application Market, By Vertical And Region, 2016
4.5 Lifecycle Analysis, By Region, 2016-2021

5 Market Overview
5.1 Introduction
5.2 Market Segmentation
5.2.1 By Software
5.2.2 By Type of App
5.2.3 By Operating System
5.2.4 By Organization Size
5.2.5 By Vertical
5.2.6 By Region
5.3 Market Dynamics
5.3.1 Drivers
5.3.1.1 Increase in Smartphone Penetration With Variant Operating Systems
5.3.1.2 Increased Productivity of Both Employees And Enterprises
5.3.1.3 Increasing Demand for Real-Time Information Capture
5.3.1.4 Increase in Mobile Workforce
5.3.2 Restraints
5.3.2.1 Difficulties in Adoption of Technology By Ground Level Workforce
5.3.2.2 Complexities in Interoperability And Cross-Platform Implementation
5.3.3 Opportunities
5.3.3.1 Advancements in Cloud Technologies to Serve Various Business Needs
5.3.3.2 Increase in New Offerings Such As M2M And Iot By Telcos
5.3.4 Challenges
5.3.4.1 Cost of Implementing the Solution
5.3.4.2 Security Constraints in Safeguarding Potential Information

6 Industry Trends
6.1 Introduction
6.2 Value Chain Analysis
6.3 Strategic Benchmarking

7 Mobile Enterprise Application Market Analysis, By Software
7.1 Introduction
7.2 Accounting And Finance
7.3 Enterprise Resource Planning
7.4 Communication And Collaboration
7.5 Customer Relationship Management
7.6 Mcommerce
7.7 Business Analytics
7.8 Mobile Learning
7.9 Supply Chain Management
7.10 Productivity Tools
7.11 Human Capital Management
7.12 Others

8 Mobile Enterprise Application Market Analysis, By Type of App
8.1 Introduction
8.2 Native App
8.3 Hybrid App
8.4 Web App

9 Mobile Enterprise Application Market Analysis, By Operating System
9.1 Introduction
9.2 Android
9.3 Ios
9.4 Windows
9.5 Others

10 Mobile Enterprise Application Market Analysis, By Organization Size
10.1 Introduction
10.2 Small And Medium Enterprises
10.3 Large Enterprises

11 Mobile Enterprise Application Market Analysis, By Vertical
11.1 Introduction
