Steel Framing Market: End-Use Industry (Construction & Infrastructure, Manufacturing, Oil and Gas) & By Geography (Europe, Asia Pacific, North America, Rest of the World)-Forecast (2016-2021)

Description:
Steel frames can be defined as an structure made up of steel and used by the modern construction industry used to increase the safety standards and increase the life of the building. Modern building & construction players are extensively using the steel frames in building and construction applications looking at the architectural freedom and reliability provided by steel. Globally building and construction consumes more than 50% of the steel produced and a large proportion of the steel used in building and construction is attributed to the steel framing market. Usage of steel frames in building activities is more time and cost efficient, durable and sustainable and allows higher degree of architectural and design flexibility to the architects. Steel frames also plays and vital role in providing longevity to the structure and comes with attributes such as resistance to fire, corrosion and pests. Globally increasing construction activities for the high rise building is expected to be the key growth driver for steel frames during the period of study.

Geographically North America dominated steel framing market owing to the large scale demand of steel framing into construction, oil & gas industry and largest number of high rise building in the region as compared to other regions. North America was followed by Asia-Pacific and Europe as second and third largest market for steel framing market. Asia Pacific is projected to have fastest growth, owing to rapidly developing infrastructure as a result of growing construction industry and, expanding manufacturing base and government initiatives for stricter building & construction regulations in developing nations such as China, and India in this region.

This report identifies the global steel framing market size in for the year 2014-2016, and forecast of the same for year 2021. It also highlights the market drivers, restraints, growth indicators, challenges, and other key aspects with respect to global steel framing market.

This report segments global steel framing market on the basis of end-use industry and regional market as follows:

Steel Framing Market research report is classified on the basis of end-use industry. Some of the major end-use industry of steel framing covered in this report are as follows:
Construction & Infrastructure, Manufacturing, Oil and Gas and Others

This report has been further segmented into major regions, which includes detailed analysis of each region such as: North America, Europe, Asia-Pacific (APAC), and Rest of the World (RoW) covering all the major country level markets in each of the region

This report identifies all the major companies operating in the steel framing market. Some of the major companies' profiles in detail are as follows:

Keymark Enterprises, LLC
Aegis Metal Framing
The Steel Framing Company
Voestalpine Metsec Plc
Hadley Group
