Artificial Intelligence Empowering Digital Banking and Finance Ecosystem-IT, Computing and Communications Alert

Description:
This edition of IT, Computing and Communications (ITCC) Alert provides a snapshot of the use of artificial intelligence (AI) and machine learning for the banking and financial service (BFS) sector. It highlights key application areas for AI, innovative applications for BFS, key industry initiatives in BFS. The study highlights eight innovative Fintech solutions and also provide insights on patents.

ITCC Alert's mission is to investigate emerging wireless communication and computing technology areas including 3G, 4G, Wi-Fi, Bluetooth, Big Data, cloud computing, augmented reality, virtual reality, artificial intelligence, virtualization and the Internet of Things and their new applications; unearth new products and service offerings; highlight trends in the wireless networking, data management and computing spaces; provide updates on technology funding; evaluate intellectual property; follow technology transfer and solution deployment/integration; track development of standards and software; and report on legislative and policy issues and many more.

The Information & Communication Technology cluster provides global industry analysis, technology competitive analysis, and insights into game-changing technologies in the wireless communication and computing space. Innovations in ICT have deeply permeated various applications and markets. These innovations have profound impact on a range of business functions for computing, communications, business intelligence, data processing, information security, workflow automation, quality of service (QoS) measurements, simulations, customer relationship management, knowledge management functions and many more. Our global teams of industry experts continuously monitor technology areas such as big data, cloud computing, communication services, mobile and wireless communication space, IT applications & services, network security, and unified communications markets. In addition, we also closely look at vertical markets and connected industries to provide a holistic view of the ICT Industry.

Contents:
Impact of Artificial Intelligence on Banking and Financial Services
- Artificial Intelligence Impacting Banking and Financial Service-Overview
- Anti Fraud and Risk Monitor with Deep Learning Neural Networks
- Machine Learning-based Financial Search
- Automated Big Data Finance Underwriting Model
- Management Tool for Structured Financial Products
- Artificial Intelligence-based Automated Banking Information Platform
- Wearable Biometric Authentication Solution for Digital Payments
- Eye-print-based Biometric Authentication Solution for Mobile Payments
- Facial Recognition-based Digital Payment Solution

Strategic Perspectives
- Key Industry Initiatives
- Key Patents-World
- Key Patents-United States
- Industry Contacts

Ordering:
Order Online - http://www.researchandmarkets.com/reports/4013013/

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.
