World TV & New Video Services - Data & Forecasts up to 2020

Description: Terrestrial - Satellite - Cable - IPTV - DVD - Blu-ray - Video on demand Data & forecasts up to 2021

The TV experts publish half-yearly their TV & Video Services observatory covering 39 countries, 10 regions and world consolidated. This ongoing monitoring is accompanied by regular analyses and analyst viewpoints of trends, disruptions and industry moves.

This bundle includes two deliverables:

1. A report (ppt format) The state-of-the-art for TV & Video Services: changes in accessing TV, viewing patterns, TV & video revenues and audiovisual value chain. Besides the monitoring of these criteria the study provides you with analyses and viewpoints of our lead TV & video analysts. It draws the audiovisual landscape regarding TV & video services worldwide, going even further in stressing out the regional differences and market specificities.

2. A half-yearly updated dataset (xlsx) Historicals, Estimations & Forecasts up to 2021
   - TV and OTT video access modes: Terrestrial, Cable, Satellite, IPTV
   - Network digitization
   - TV and video consumption: audience and time spent
   - Television and video revenues
     - TV revenues: advertising, subscription, public revenues
     - Physical video revenues: DVD/BluRay retail & rental
     - Video on demand revenues: DTR, EST, SVoD, advertising
