**Description:**

"Industrial Agitators Market by Mounting (Top Mounted, Side Mounted, Bottom Mounted), Model (Large Tank Agitators, Drum Agitators, Portable Agitators), Form (Solid-Solid, Solid-Liquid, Liquid-Liquid, Liquid-Gas), Component (Heads, Sealing Systems, Impellers), Industry, and Geography - Global Forecast to 2022"

"Growing demand for agitators from chemical industry is fueling the growth of the industrial agitators market."

Increasing demand for industrial agitators from chemical industry is one of the major factors fueling the growth of this market. In addition, the rapid growth in technology has also led to increase in adoption of industrial agitators, thereby further accelerating the growth of the industrial agitators market. The major restraining factor for the growth of the industrial agitators market is high cost of installation and maintenance.

"The growth of industrial agitators market is expected to be driven by top-mounted agitators during the forecast period."

The market for top-mounted agitators is expected to witness significant growth during the forecast period. As top-mounted agitators are used in both atmospheric and pressurized tanks across various industries such as pharmaceutical, food and beverages, and cosmetic, among others, it leads to increased traction in the market. Also, the installation of top-mounted agitators is quick and easy compared to side-mounted and bottom-mounted agitators.

"North America and APAC are the major markets for industrial agitators industry"

North America is expected to hold the largest size of the industrial agitators market during the forecast period, while the market in APAC is expected to grow at the highest rate during the same period. China, Japan, and India are some of the major countries driving the growth of the industrial agitators market in APAC. A significant number of manufacturing companies of industrial agitators and various other industries wherein industrial agitators are used are located in North America and APAC such as SPX Flow, Inc. (U.S.), Tacmina Corporation (Japan), and Dynamix Agitators Inc. (Canada), among many others. Besides, the governments, especially in the APAC countries, are making significant investments for the industrial development. These are some of the major factors driving the growth of the industrial agitators market in North America and APAC.
