Environmental Auditing: Federal Air Quality MACT Standards for Coating Industry Operations

Description: Environmental Auditing: Federal Air Quality MACT Standards for Coating Industry Operations provides environmental audit checklists for the air quality management rules in 40 CFR Part 63 specific to:

- Paper and other web coating operations
- Miscellaneous coating manufacturing operations
- Paints and allied products manufacturing
- Miscellaneous metal parts and products
- Plastic parts and products.

For the Subparts of 40 CFR Part 63 and EPA air quality standards covered in this guide see Topics below.

This Air Quality MACT Standards for Coating Industry Operations publication is offered in conjunction with Environmental Auditing: Federal Compliance Guide. The Air Quality Management module in this Federal Guide covers air quality regulations that apply broadly to a variety of industrial operations. This Air Quality MACT for Coating Industry Operations publication includes additional requirements that specifically apply to the coating industry and is intended to complement the general Air Quality Management module of the Federal Guide.

The Environmental Auditing: Federal Compliance Guide is also complemented by the full range of 50 Environmental State Difference Summaries and Checklists for 49 states, and Puerto Rico. California is available separately.

These guides are indispensable resources for environmental and occupational health and safety professionals, attorneys, and corporate counsel.

Benefits

- Easy to use and field-tested by recognized experts in environmental auditing
- Assists facilities in the demonstration of due diligence and risk mitigation
- Enables organizations to add company and site-specific requirements
- Includes procedural environmental audit checklists that support good management practices
