Environmental Auditing: Federal Air Quality MACT Standards for Inorganic Chemical Manufacturing

Description: Environmental Auditing: Federal Air Quality MACT Standards for Inorganic Chemical Manufacturing provides environmental audit checklists for the air quality management rules in 40 CFR Part 63 specific to:

- Generic MACT standards
- Hydrochloric acid production
- Chemical preparations manufacturing standards.

For the Subparts of 40 CFR Part 63 covered in this guide see Topics below.

This Air Quality MACT Standards for Inorganic Chemical Manufacturing publication is offered in conjunction with Environmental Auditing: Federal Compliance Guide. The Air Quality Management module in this Federal Guide covers air requirements that apply broadly to a variety of industrial operations. This Air Quality MACT Standards for Inorganic Chemical Manufacturing publication includes additional requirements that specifically apply to inorganic chemical manufacturing operations and is intended to complement the general Air Quality Management module of the Federal Guide.

The Environmental Auditing: Federal Compliance Guide is also complemented by the full range of 50 Environmental State Difference Summaries and Checklists for 49 states, and Puerto Rico. California is available separately.

These guides are indispensable resources for environmental and occupational health and safety professionals, attorneys, and corporate counsel.
