Environmental Auditing: Federal Air Quality MACT Standards for Site Remediation

Description: Environmental Auditing: Federal Air Quality MACT Standards for Site Remediation provides environmental audit checklists for the air quality management rules in 40 CFR Part 63.7882 specific to each new, reconstructed, or existing “affected source” for site remediation. Affected sources include process vents, remediation material management units, and equipment leaks.

For the Topics covered by 40 CFR Part 63.7882 see Topics below.

This Air Quality MACT Standards for Site Remediation publication is offered in conjunction with Environmental Auditing: Federal Compliance Guide. The Air Quality Management module in this Federal Guide covers air requirements that apply broadly to a variety of industrial operations. This Air Quality MACT for Site Remediation publication includes additional requirements that specifically apply to site remediation operations and is intended to complement the general Air Quality Management module of the Federal Guide.

The Environmental Auditing: Federal Compliance Guide is also complemented by the full range of 50 Environmental State Difference Summaries and Checklists for 49 states, and Puerto Rico. California is available separately.

These guides are indispensable resources for environmental and occupational health and safety professionals, attorneys, and corporate counsel.

Benefits

- Easy to use and field-tested by recognized experts in environmental auditing
- Assists facilities in the demonstration of due diligence and risk mitigation
- Enables organizations to add company and site-specific requirements
- Includes procedural environmental audit checklists that support good management practices
- Allows experienced auditors to expedite an inquiry, and less-experienced auditors to review the detailed guide notes as required

Topic Areas

Environmental Auditing: Federal Air Quality MACT for Site Remediation covers:

General Standards
Emissions Limitations and Work Practice Standards for:

- Process Vents
- Tanks
- Containers
- Surface Impoundments
- Separators
- Transfer Systems
- Equipment Leaks
- Closed Vent Systems and Control Devices

Requirements for Continuous Monitoring Systems
Performance Tests
General Compliance Requirements
Recordkeeping Requirements
Notification, Reports and Records

Environmental Auditing: Federal Compliance Guide covers Federal Air Quality requirements and other topics.
Features

Applicability Tables

Applicability Tables facilitate quick and easy determination of which regulations and sections of the environmental audit checklists apply to specific facility operations.

Pre-Audit Preparation

Lists materials to be reviewed before conducting an audit.

Rulebook

Provides comprehensive, detailed requirement statements, with guidance on compliance issues and inspection procedures and practices.

Scoresheet

Enables quick recording of a facility's compliance status for each requirement. Additional features include customizable scoresheets in Microsoft Word® and Excel®.
