Soybean Oil Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2017 - 2022

Description: Soybean oil is a clear yellow vegetable oil with a neutral taste and a high smoke point. It is extracted from soybeans seeds that consist 18-20% of extractable oil by weight. Solvent extraction currently represents the most common method for extracting soybean oil and involves cracking, heating and rolling of the seed to extract the oil. Being high in omega-3 fatty acids, polyunsaturated fats and low in saturated fats; soybean oil is considered as one of the healthiest cooking oils. It currently represents the second largest (after palm oil) edible oil consumed in the world with the United States and China representing the largest markets. Health benefits offered by soybean oil include - lowering of cholesterol levels, improving heart health, increasing immunity, preventing osteoporosis and reducing cognitive disorders. The majority of its global demand currently comes from the food industry. Within the food industry, most of the demand is for cooking (mostly for frying or baking) and as a condiment in salads. Apart from its uses in cooking, soybean oil also finds applications in industrial paints, lubricants, solvents, cleaners, adhesives, oleochemicals, biodiesel, biocomposites, etc. Due to its high unsaturated fat content, it undergoes early oxidation upon exposure to air, light or moisture - which makes it suitable for printing inks and oil paint formulations. Its high lipid content and lubricating characteristics also make it a good choice for specialty fermentation and drilling applications respectively. Being low in cost, easily available and environment friendly, it is an ideal component for bio-based products. Looking forward, we expect the demand of soybean oil to grow at a CAGR of around 4% during the next five years.

“Soybean Oil Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2017-2022” provides a techno-commercial roadmap for setting up a soybean oil processing plant. The study, which has been done by one of the world's leading research and advisory firms, covers all the requisite aspects of the soybean oil market. This ranges from macro overview of the market to micro details of the industry performance, processing and manufacturing requirements, project cost, project funding, project economics, expected returns on investment, profit margins, etc. This report is a must-read for entrepreneurs, investors, researchers, consultants, business strategists, and all those who are planning to foray into the soybean oil industry in any manner.

Key Questions Answered in This Report?

What are the key success and risk factors in the soybean oil industry?
How has the soybean oil market performed so far and how will it perform in the coming years?
What is the structure of the soybean oil industry and who are the key players?
What are the various unit operations involved in a soybean oil plant?
What is the total size of land required for setting up a soybean oil plant?
What are the machinery requirements for setting up a soybean oil plant?
What are the raw material requirements for setting up a soybean oil plant?
What are the utility requirements for setting up a soybean oil plant?
What are the manpower requirements for setting up a soybean oil plant?
What are the infrastructure costs for setting up a soybean oil plant?
What are the capital costs for setting up a soybean oil plant?
What are the operating costs for setting up a soybean oil plant?
What should be the pricing mechanism of soybean oil?
What will be the income and expenditures for a soybean oil plant?
What is the time required to break-even?

Contents:

1 Preface
2 Research Methodology
3 Executive Summary
4 Introduction
11.11 Utility Requirements and Expenditures
11.12 Manpower Requirements and Expenditures
11.13 Other Capital Investments

12 Loans and Financial Assistance

13 Project Economics
13.1 Capital Cost of the Project
13.2 Techno-Economic Parameters
13.3 Product Pricing and Margins Across Various Levels of the Supply Chain
13.4 Taxation and Depreciation
13.6 Income Projections
13.7 Expenditure Projections
13.8 Financial Analysis
13.9 Profit Analysis

14 Key Player Profiles
14.1 ADM
14.2 Bunge
14.3 Cargill
14.4 Louis Dreyfus
14.5 Wilmar

Ordering:
Order Online - http://www.researchandmarkets.com/reports/4071796/
Order by Fax - using the form below
Order by Post - print the order form below and send to

  Research and Markets,
  Guinness Centre,
  Taylors Lane,
  Dublin 8,
  Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: Soybean Oil Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2017 - 2022
Web Address: http://www.researchandmarkets.com/reports/4071796/
Office Code: SC2GUJVQ

Product Formats
Please select the product formats and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Price</th>
</tr>

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
