
Description:

Mung beans have been cultivated and consumed in South Asia since ancient times. Mung beans are a good source of proteins, fibres, vitamins, minerals, antioxidants and phytoestrogens. Apart from their nutritional value, mung beans also help in preventing and controlling certain health issues like diabetes, osteoporosis, heart diseases, anaemia and cancer. Either cooked or sprouted, mung beans are suitable for people of every age as they are easily digestible. As a result of their high nutritional value and several health benefits, mung beans are being increasingly incorporated by health conscious consumers into their diets. The global mung beans market reached a volume of around 3 Million Tons in 2016. The market is currently being driven by numerous factors which include its numerous health benefits, population growth, changing dietary habits, new market opportunities, etc.

"Mung Beans Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2017-2022" gives an in-depth analysis of the global mung beans market. The report has segmented the global mung beans market on the basis of key regions. According to the report, India currently represents the largest producer of mung beans accounting for around 60% of the total global production. India was followed by China and Thailand. The report also provides a detailed value chain analysis of mung beans. This encompasses the entire activities in the value chain such as cultivation, procurement, processing, sales and distribution.

The report provides a detailed roadmap for setting up a mung beans processing plant. The study, which has been done by one of the world's leading research and advisory firms, covers all the essential aspects of the mung beans industry. This ranges from a comprehensive view of the market to minute details of the processing and manufacturing requirements, project cost, project funding, project economics, expected returns on investment, profit margins, etc. This report is a must-read for entrepreneurs, investors, researchers, consultants, business strategists and all those who have any kind of stake or are planning to foray into the mung beans industry in any manner.

Key Questions Answered in This Report:

How has the mung beans market performed so far and how will it perform in the coming years?
Who are the key regional producers in the global mung beans industry?
What are the price trends of mung beans?
What are the various stages in the value chain of the mung beans industry?
What are the key driving factors and challenges in the mung beans industry?
What is the structure of the mung beans industry and who are the key players?
What is the degree of competition in the mung beans industry?
What are the profit margins in the mung beans industry?
What are the key requirements for setting up mung beans processing plant?
How are mung beans processed?
What are the various unit operations involved in mung beans plant?
What is the total size of land required for setting up mung beans plant?
What are the machinery requirements for setting up mung beans plant?
What are the raw material requirements for setting up mung beans plant?
What are the packaging requirements for mung beans?
What are the transportation requirements for mung beans?
What are the utility requirements for setting up mung beans plant?
What are the manpower requirements for setting up mung beans plant?
What are the infrastructure costs for setting up mung beans plant?
What are the capital costs for setting up mung beans plant?
What are the operating costs for setting up mung beans plant?
What will be the income and expenditures for mung beans plant?
What is the time required to break-even?
11.1 Capital Cost of the Project
11.2 Techno-Economic Parameters
11.3 Product Pricing and Margins Across Various Levels of the Supply Chain
11.4 Taxation and Depreciation
11.5 Income Projections
11.6 Expenditure Projections
11.7 Financial Analysis
11.8 Profit Analysis
