Rice Bran Oil Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2017 - 2022

Description:
Rice bran oil is an edible vegetable oil which is derived from the outer brown layer of rice. Its three major constituents- Gamma-oryzanol, tocopherols and tocotrienols have potential significance in human health and diet. Rice bran oil reduces cancer risk, lowers cholesterol levels, increases immunity, improves nervous system and helps in combating gastrointestinal disorders. Furthermore, this oil offers delicate flavours, excellent textures and can easily be blended with other less stable oils. Rice bran oil is presently gaining prominence not only in the food and nutrition sector but also in the cosmetics and personal care sector. The global rice bran oil market has grown at a CAGR of around 3% during 2009-2016, reaching production volume of around 1.5 Million Tons in 2016. The major factors that are currently driving the global rice bran oil market include its diversified applications, numerous cooking benefits compared to other edible oils, growing health consciousness, aggressive promotions by manufacturers and increasing penetration levels in both developed and emerging markets.

“Rice Bran Oil Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2017-2022” provides a detailed insight into the global rice bran oil market. The report has segmented the market on the basis of end-uses and major regions. Majority of the total rice bran oil is used for edible purposes, while the rest is consumed for industrial applications. Geography-wise, India represents the world's largest producer accounting for the majority of the total global production. India is followed by China and Japan. The report also covers some of the major players operating in this market. A.P. Solvex is currently the world's biggest producer of rice bran oil. Other major producers in India include Sethia Oils, Ruchi Soya, Food Fat and Fertilisers and Maheshwari Solvent.

The report provides a comprehensive analysis for setting up a rice bran oil processing plant. The study covers all the requisite aspects of the rice bran oil industry and provides an in-depth analysis of the market, industry performance, processing and manufacturing requirements, project cost, project funding, project economics, expected returns on investment, profit margins, etc. This report is a must-read for entrepreneurs, investors, researchers, consultants, business strategists, and all those who are planning to foray into the rice bran oil industry in any manner.

Key Questions Answered in This Report:

How has the rice bran oil market performed so far and how will it perform in the coming years?
What are the key regional markets in the global rice bran oil industry?
Which are the key end-use for rice bran oil?
What are the various stages in the value chain of the rice bran oil industry?
What are the key driving factors and challenges in the rice bran oil industry?
What is the degree of competition in the rice bran oil industry?
What are the profit margins in the rice bran oil industry?
What are the key requirements for setting up a rice bran oil plant?
How is rice bran oil manufactured?
What are the various unit operations involved in a rice bran oil plant?
What is the total size of land required for setting up a rice bran oil plant?
What are the machinery requirements for setting up a rice bran oil plant?
What are the raw material requirements for setting up a rice bran oil plant?
What are the packaging requirements for rice bran oil?
What are the transportation requirements for rice bran oil?
What are the utility requirements for setting up a rice bran oil plant?
What are the manpower requirements for setting up a rice bran oil plant?
What are the infrastructure costs for setting up a rice bran oil plant?
What are the capital costs for setting up a rice bran oil plant?
What are the operating costs for setting up a rice bran oil plant?
What will be the income and expenditures for a rice bran oil plant?
What is the time required to break-even?
12.1 Land Requirements and Expenditures
12.2 Construction Requirements and Expenditures
12.3 Plant Layout
12.4 Plant Machinery
12.5 Machinery Pictures
12.6 Raw Material Requirements and Expenditures
12.7 Raw Material and Final Product Pictures
12.8 Packaging Requirements and Expenditures
12.9 Transportation Requirements and Expenditures
12.10 Utility Requirements and Expenditures
12.11 Manpower Requirements and Expenditures
12.12 Other Capital Investments

13 Loans and Financial Assistance

14 Project Economics
14.1 Capital Cost of the Project
14.2 Techno-Economic Parameters
14.3 Product Pricing and Margins Across Various Levels of the Supply Chain
14.4 Taxation and Depreciation
14.5 Income Projections
14.6 Expenditure Projections
14.7 Financial Analysis
14.8 Profit Analysis

15 Key Player Profiles
