Palm Oil Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2017 - 2022

Description:
Originated from West-Africa, palm oil currently represents one of the world’s most popular and economical edible oil. It is extracted from the fruits of the oil palm tree, which is one of the most efficient oilseed crops that can produce ten times more oil than many other oilseed crops. Unlike most other vegetable oils, palm oil is naturally semi-solid and does not require hydrogenation to achieve a solid state. This characteristic makes it ideal for baked and packaged goods and gives it an advantage over vegetable oils made-up of soybean and rapeseed that require hydrogenation to solidify them. Due to its balanced and unique chemical composition of saturated and unsaturated fatty acids, palm oil finds its highest consumption in the food industry. The demand of palm oil is encouraged by some of the factors such as growing demand in diverse end-use industries, change in customer preferences and government initiatives to curb trans-fat consumption. The global palm oil market reached production volumes 69 Million Tons in 2016, growing at a CAGR of around 7% during 2009-2016.

“Palm Oil Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2017-2022” provides a detailed insight into the global palm oil market. The report has segmented the market on the basis of applications and regions. The food sector currently accounts for the majority of the total palm oil consumption. The food sector is followed by the consumer products and the energy sector. Country-wise, Indonesia currently represents the largest producer of palm oil accounting for nearly half of the total global production. Indonesia is closely followed by Malaysia.

The report provides a comprehensive analysis for setting up a palm oil processing plant. The study covers all the requisite aspects of the palm oil industry and provides an in-depth analysis of the market, industry performance, processing and manufacturing requirements, project cost, project funding, project economics, expected returns on investment, profit margins, etc. This report is a must-read for entrepreneurs, investors, researchers, consultants, business strategists, and all those who are planning to foray into the palm oil industry in any manner.

Key Questions Answered in This Report:

How has the edible oil market performed so far and how will it perform in the coming years?
What are the key product types in the global edible oil industry?
How has the palm oil market performed so far and how will it perform in the coming years?
What are the key regional markets in the global palm oil industry?
What are the key applications in the global palm oil industry?
What are the various stages in the value chain of the palm oil industry?
What are the key driving factors and challenges in the palm oil industry?
What is the structure of the palm oil industry and who are the key players?
What is the degree of competition in the palm oil industry?
What are the profit margins in the palm oil industry?
What are the key requirements for setting up palm oil manufacturing plant?
How is palm oil manufactured?
What are the various unit operations involved in a palm oil manufacturing plant?
What is the total size of land required for setting up a palm oil plant?
What are the machinery requirements for setting up a palm oil plant?
What are the raw material requirements for setting up a palm oil plant?
What are the packaging requirements for palm oil?
What are the transportation requirements for palm oil?
What are the utility requirements for setting up a palm oil plant?
What are the manpower requirements for setting up a palm oil plant?
What are the infrastructure costs for setting up a palm oil plant?
What are the capital costs for setting up a palm oil plant?
What are the operating costs for setting up a palm oil plant?
What will be the income and expenditures for palm oil plant?
What is the time required to break-even?
11.1 Land Requirements and Expenditures
11.2 Construction Requirements and Expenditures
11.3 Plant Machinery
11.4 Major Machinery Pictures
11.5 Raw Material Requirements and Expenditures
11.6 Raw Material and Final Product Picture
11.7 Packaging Requirements and Expenditures
11.8 Transportation Requirements and Expenditures
11.9 Utility Requirements and Expenditures
11.10 Manpower Requirements and Expenditures
11.11 Other Capital Investments

12 Loans and Financial Assistance

13 Project Economics
13.1 Capital Cost of the Project
13.2 Techno-Economic Parameters
13.3 Product Pricing and Margins Across Various Levels of the Supply Chain
13.4 Taxation and Depreciation
13.5 Income Projections
13.6 Expenditure Projections
13.7 Financial Analysis
13.8 Profit Analysis

14 Key Player Profiles

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock, Co. Dublin,
Ireland.
