Chemical and Pharmaceutical Plants Construction in Argentina to 2020: Market Databook

Description: The ‘Chemical and Pharmaceutical Plants Construction in Argentina to 2020: Market Databook’ contains detailed historic and forecast market value data for the chemical and pharmaceutical plants construction industry, including a breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition). The databook provides historical and forecast valuations of the industry using the construction output and value-add methods.

Summary: This report is the result of extensive market research covering the chemical and pharmaceutical plants construction industry in Argentina. It contains detailed historic and forecast market value data for the chemical and pharmaceutical plants construction industry, including a breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition). ‘Chemical and Pharmaceutical Plants Construction in Argentina to 2020: Market Databook’ provides a top-level overview and detailed insight into the operating environment of the chemical and pharmaceutical plants construction industry in Argentina. It is an essential tool for companies active across the Argentinean construction value chain and for new players considering to enter the market.

Scope:
- Overview of the chemical and pharmaceutical plants construction industry in Argentina.
- Historic and forecast market value for the chemical and pharmaceutical plants construction industry by construction output and value-add methods for the period 2011 through to 2020.
- Historic and forecast market value by construction activity (new construction, repair and maintenance, refurbishment and demolition) across the chemical and pharmaceutical plants construction industry for the period 2011 through to 2020.

Reasons To Buy:
- This report provides you with valuable data for the chemical and pharmaceutical plants construction industry in Argentina.
- This report provides you with a breakdown of market value by type of construction activity (new construction, repair and maintenance, refurbishment and demolition).
- This report enhances your knowledge of the market with key figures detailing market values using the construction output and value add methods.
- This report allows you to plan future business decisions using the forecast figures given for the market.
