Global Rheumatoid Arthritis Drug Market Outlook 2022

Description: “Global Rheumatoid Arthritis Drug Market Outlook 2022” report gives comprehensive clinical and non-clinical insight on various trends associated with the rheumatoid arthritis drug market across the developed and developing market. Report helps to identify the basic classification and molecular mechanism of action of rheumatoid arthritis drugs available in the market. The top 5 leading DMARDs (Humira, Enbrel, Remicade, Simponi & Otezla) have dominated the overall anti-rheumatics market with total revenue surpassing more than US$ 25 Billion in 2016. These drugs will remain strong over the next 5 years, despite expected biosimilar competition.

Therapeutic advances have transformed the rheumatoid arthritis treatment paradigm over the last 20 years, from focusing on symptom management to now aiming for slowed disease progression and even disease remission. Disease-modifying biological medicines have ushered in a new age of treatment by targeting the cells involved in the progression of the disease.

These medicines have dramatically slowed or even reversed the negative physical effects associated with the disease and made clinical remission possible for patients with severe rheumatoid arthritis. The market of anti-rheumatics is growing at a constant speed globally. There are some driving factors which are accelerating the growth of anti-rheumatics market such as the increasing number of patients with rheumatoid arthritis, rise in research and development activities, increasing awareness among people about rheumatoid arthritis, and improved healthcare infrastructure in the region.

Until late in the 20th century, the therapy of rheumatic diseases relied on the use of drugs that had been developed through empirical approaches without detailed understanding of the molecular mechanisms involved. That approach changed with the introduction of biologic therapeutics at the end of the 20th century and by the recent development of small-molecule inhibitors of intracellular signal transduction pathways.

TNF-blocking biologic agents were introduced into the therapy of rheumatoid arthritis and other autoimmune and inflammatory diseases in the late 1990s. Further biologic agents targeting cytokine networks or specific lymphocyte subsets have since been added to the armamentarium of anti-rheumatic therapy. During the last few years, another wave of novel discoveries led to the development of a new class of small molecule anti-inflammatory compounds targeting intracellular signal transduction molecules, such as tyrosine kinases.

The most valuable development in treating Rheumatoid Arthritis will be biomarkers to help diagnose it early, identify those with more severe disease requiring more aggressive treatment, and indicate the most appropriate therapy for each person. Biomarkers may even help to decide the best time to step down therapy when a patient is in remission. There is a huge amount of research taking place, which reflects the excellent relationships between rheumatology health care professionals and people with Rheumatoid Arthritis.

“Global Rheumatoid Arthritis Drug Market Outlook 2022” report highlights:

- Classification & Molecular Mechanism of Rheumatoid Arthritis Drugs
- Synthetic DMARDs as Rheumatoid Arthritis Drug
- Biological Agents as Rheumatoid Arthritis Drug
- Global Market of Rheumatoid Arthritis Drug
- Global Tendencies in Use of Antirheumatics
- Global Rheumatoid Arthritis Drug Market Future Prospect

Contents:

1. Antirheumatoids: Call of Rheumatoid Arthritis
   1.1 Prologue towards Rheumatoid Arthritis
   1.2 Obtainable Treatment for Rheumatoid Arthritis

2. Molecular Mechanism of Antirheumatoids
2.1 Purpose of DMARDs in Rheumatoid Arthritis
2.2 Role of Biological Agents in Rheumatoid Arthritis
2.2.1 TNF-Inhibitors
2.2.2 Interleukin-1 & IL-6 Blockers

3. Classification of Rheumatoid Arthritis Drugs
3.1 Traditional Classification of Rheumatoid Arthritis Drugs
3.2 New Proposed Classification of DMARDs

4. Synthetic DMARDs as Rheumatoid Arthritis Drug
4.1 Methotrexate (MTX)
4.2 Sulfasalazine (SSZ)
4.3 Leflunomide
4.4 Hydroxychloroquine (HCQ)

5. Biological Agents as Rheumatoid Arthritis Drug
5.1 Cytokine Inhibitors
5.1.1 Etanercept (Enbrel)
5.1.2 Infliximab (Remicade)
5.1.3 Adalimumab (Humira)
5.1.4 Golimumab (Simponi)
5.1.5 Certolizumab pegol (Cimzia)
5.2 Interleukin 1 & Interleukin 6 Inhibitors
5.2.1 Anakinra (Kineret)
5.2.2 Tocilizumab (RoActerma)
5.3 T-Cell & B-Cell Inhibitors
5.3.1 Abatacept (Orencia)
5.3.2 Rituximab (Mabthera)

6. Global Prevalence of Rheumatoid Arthritis
6.1 US
6.2 Europe
6.3 Canada
6.4 Asia

7. Global Tendencies in Use of Antirheumatics
7.1 Trail from Conventional to Biological DMARDs
7.2 Global Trends of Antirheumatic Prescription

8. Global Market of Rheumatoid Arthritis Drug
8.1 Market Overview of DMARDs
8.2 Market of Biosimilar DMARDs
8.3 Top Leading DMARDs by Revenues (2015 & 2022)
8.3.1 Humira (Adalimumab)
8.3.2 Enbrel (Etanercept)
8.3.3 Remicade
8.3.4 Simponi
8.3.5 Otezla (Celgene)

9. Global Rheumatoid Arthritis Drug Market Dynamics
9.1 Accelerative Parameters
9.2 Challenges

10. Global Rheumatoid Arthritis Drug Market Future Prospect

11. Competitive Landscape
11.1 Abbvie
11.2 Biogen Idec
11.3 Bristol-Myers Squibb
11.4 Celgene
11.5 Celltrion
11.6 J&J
11.7 MedImmune

Ordering:
Order Online - http://www.researchandmarkets.com/reports/4084977/
Order by Fax - using the form below
Order by Post - print the order form below and send to
Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: Global Rheumatoid Arthritis Drug Market Outlook 2022
Web Address: http://www.researchandmarkets.com/reports/4084977/
Office Code: SC2G34JN

Product Formats
Please select the product formats and quantity you require:

<table>
<thead>
<tr>
<th>Format</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Electronic (PDF) - Single User</td>
<td>USD 1500</td>
</tr>
<tr>
<td>Hard Copy</td>
<td>USD 2400 + USD 56 Shipping/Handling</td>
</tr>
<tr>
<td>CD-ROM</td>
<td>USD 2400 + USD 56 Shipping/Handling</td>
</tr>
<tr>
<td>Electronic (PDF) - Enterprisewide</td>
<td>USD 3000</td>
</tr>
</tbody>
</table>

* Shipping/Handling is only charged once per order.
* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr □ Mrs □ Dr □ Miss □ Ms □ Prof □

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
