Textile Dyes Market - Forecasts from 2017 to 2022

Description: Textile Dyes market is projected to grow at a CAGR of 7.25% over the projected period to reach US$7.982 billion by 2022, from US$5.625 billion in 2017. Textile dyes are used in the process of adding colors to textile products like fibers, yarns, and fabrics. Preference of natural dyes, growing demand for colored textiles and fibers and strong research and development investments in plant based dyes are the factors driving the market, whereas stringent environment laws, production overcapacity and raw materials price volatility are restraining the market growth.

Growing demand for environment-friendly products is boosting the use of natural dyes in textile applications, which in further led to the increase in sales of dyes. Asia Pacific region is expected to witness highest market growth due to the increase in urban households, new applications of textile products and rapid growth in the online fashion market.
