Urinary Incontinence - Epidemiology Forecast to 2023

Description: Urinary Incontinence - Epidemiology Forecast to 2023 report provides an overview of the disease and epidemiology trends of the Urinary Incontinence for the United States, EU5 (France, Germany, Italy, Spain, UK) and Japan. It also includes historical and forecasted epidemiological data for the prevalent cases of Urinary Incontinence from 2013-2023.

Urinary Incontinence is a multifactorial syndrome which occurs due to the failure of the storage function of the lower urinary tract and loss of bladder control resulting in leakage of urine. Embarrassment, isolation, and depression are observed among patients with Urinary Incontinence. Millions of individuals worldwide are suffering from Urinary Incontinence. It is most common among the old people. It increases the chances of developing several medical conditions such as local skin irritation, rashes, and urinary infections.

According to research, the prevalent cases of Urinary Incontinence are estimated to be 97,122,858 by 2023.

The report is built using data and information sourced from proprietary databases, primary and secondary research and in-house Forecast model analysis by our team of industry experts.

Scope:

Report covers the disease overview including pathophysiology, symptoms, diagnosis, and disease management.
The report also covers the detailed global historical and forecasted epidemiological data covering United States, EU5 and Japan from 2013-2023.

Contents:

- Report Introduction
- Urinary Incontinence Overview
- Pathophysiology
- Etiology
- Risk factors
- Diagnosis
- Treatment
- Epidemiology and Patient Population
- Total number of Prevalent cases - 7MM Countries - (2016 & 2023)
- Secondary Studies referred
- United States
  - Prevalent Cases of Urinary Incontinence in United States
  - Percentage Distribution of Urinary Incontinence by Sub Types
  - Germany
  - Prevalent Cases of Urinary Incontinence in Germany
  - Percentage Distribution of Urinary Incontinence by Sub Types
  - France
  - Prevalent Cases of Urinary Incontinence in France
  - Percentage Distribution of Urinary Incontinence by Sub Types
  - United Kingdom
  - Prevalent Cases of Urinary Incontinence in United Kingdom
  - Percentage Distribution of Urinary Incontinence by Sub Types
  - Spain
  - Prevalent Cases of Urinary Incontinence in Spain
  - Percentage Distribution of Urinary Incontinence by Sub Types
  - Italy
  - Prevalent Cases of Urinary Incontinence in Italy
  - Percentage Distribution of Urinary Incontinence by Sub Types
  - Japan
  - Prevalent Cases of Urinary Incontinence in Japan
