Chemical Engineering World

Description: India's premier technology magazine, Chemical Engineering World (CEW) caters to the chemical process industry. CEW has been disseminating authentic information on process industry innovations for the past 38 years.

CEW has emerged as India's premier technology magazine catering to practicing technocrats and managers in process and chemical industries. Apart from India, the magazine is also circulated in select countries of strategic interest to Indian exporters like the South East Asian countries, the USA and the UK.

The time-tested contents of CEW cover advances in science & technology, research & development, reviews & forecasts, new products, processes & technologies, upcoming projects, outstanding performance by individuals and organisations, events, product reviews, industry surveys, news, case studies, and most significantly, practice-oriented articles by industry experts. A niche publication with proven track record, Chemical Engineering World has been chronicling process industry innovation for four decades.

The Jasubhai Group is a dynamic services company specializing in content through print and electronic media. Established in 1967, the group initially comprised of three major companies - Engineering, Publications, Events and Digital Media - that cover a range of operations from special-interest publications and exhibition organisation to process instrumentation.

A two year subscription is also available. Please contact us for further information
