Physics of Life

Description: The purpose of the book is to give a survey of the physics that is relevant for biological applications, and also to discuss what kind of biology needs physics. The book gives a broad account of basic physics, relevant for the applications and various applications from properties of proteins to processes in the cell to wider themes such as the brain, the origin of life and evolution. It also considers general questions of common interest such as reductionism, determinism and randomness, where the physics view often is misunderstood. The subtle balance between order and disorder is a repeated theme appearing in many contexts. There are descriptive parts which shall be sufficient for the comprehension of general ideas, and more detailed, formalistic parts for those who want to go deeper, and see the ideas expressed in terms of mathematical formulas.

- Describes how physics is needed for understanding basic principles of biology
- Discusses the delicate balance between order and disorder in living systems
- Explores how physics play a role high biological functions, such as learning and thinking

Contents:

I. General Introduction
1. Introduction
2. Physics of Life. Physics of Two Levels
II. Basic Physics Concepts
3. Concepts and Numerical Reference
4. Basis of Classical (Newtonian) Dynamics
5. Electricity
The Core of Reductionism Basis
6. Quantum mechanics
7. Basic Thermodynamics; Introduction
8. Statistical Thermodynamics
III. The General Trends and the Objects
9. Some Trends in 20th Century Physics
10. From Simple to Complex Systems
11. Theoretical Physics Models; Important Analogies
12. The Biological Objects
13. What is Life?
IV. Going Further with Thermodynamics
14. Thermodynamic Formalism and Examples
15. Examples of Entropy and Order/Disorder
16. Statistical Thermodynamics Models
V. Stochastic Dynamics
17. Basic Probability Concepts
18. Stochastic Processes
19. Random Walk*
20. Stochastic Step Processes; Master Equations*
21. Brownian Motion, First Description*
22. Diffusion and Continuous Stochastic Processes*
23. Brownian Motion, Continuation*
VI. Basic Macromolecular Applications
24. Protein Folding and Structure Dynamics
25. Basis of Enzyme Kinetics
VII Non-linearity
26. General Introduction to Non-linearity
27. Oscillations and Space Variations*
28. Deterministic Chaos
29. Noise and Nonlinear Phenomena
VIII. Applications
30. Recognition and Selection in Biological Processes
31. Brownian Ratchet, Unidirectional Processes
32. Neural System
33. Origin of Life
IX Going Further
34. Physics Aspects on Evolution
35. Determinism and Randomness
36. Higher Functions of Life
37. About the Direction of Time
38. We are in the Best of Worlds; The Anthropic Principle

Ordering:
Order Online - http://www.researchandmarkets.com/reports/1769466/
Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Physics of Life
Web Address: http://www.researchandmarkets.com/reports/1769466/
Office Code: SC

Product Format
Please select the product format and quantity you require:

| Quantity | Hard Copy (Hard Back): | USD 105 + USD 31 Shipping/Handling |

* Shipping/Handling is only charged once per order.
* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr ☐ Mrs ☐ Dr ☐ Miss ☐ Ms ☐ Prof ☐
First Name: ___________________________ Last Name: ___________________________
Email Address: * ___________________________
Job Title: ___________________________
Organisation: ___________________________
Address: ___________________________
City: ___________________________
Postal / Zip Code: ___________________________
Country: ___________________________
Phone Number: ___________________________
Fax Number: ___________________________

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by Wire Transfer: Bank details will be provided on the invoice which you will receive after you place your order with us.

If you have a Marketing Code please enter it below:
