The Market of Commercial Office Real Estate in Sochi

Description: The aim of the marketing research is to describe the situation on the commercial real estate in Sochi, to present actual information about the market situation, supply and demand, consumption and state of the market, as well as the changes that took place in 2009 and 2010. The segment of commercial real estate in Sochi was virtually undeveloped until recently. The companies, working in the city, rented low quality office spaces of class C and below. As a rule, these were refurbished premises in administrative buildings and built separately and attached later premises in residential homes.
