Integrated Business Processes with ERP Systems

Description: Integrated Business Processes with ERP Systems covers the key processes supported by modern ERP systems. This textbook is designed for use as both a reference guide and a conceptual resource for students taking ERP-focused courses using SAP. It examines in depth the core concepts applicable to all ERP environments, and it explains how those concepts can be utilized to implement business processes in SAP systems. Students will gain a deep appreciation for the role of enterprise systems in efficiently managing processes from multiple functional perspectives. Examples of both positive and negative issues associated with enterprise systems are integrated throughout the chapters to illustrate the concepts with real-world experiences.

WileyPLUS is sold separately from this text.
