Alpha Plus Portfolio

Key features of Alpha Portfolio Plus subscription include:

ONE ALPHA PLUS STOCK EVERY MONTH
You will get a detailed and easy to understand report (covering sector analysis, detailed analysis of the past record of the company, Management Q&A based on meetings with the management, price target and time frame) of 1 Alpha stock idea every month. Since most of Alpha's stock ideas will be from Mid cap space, a meeting with the distributors, the competitors and the management of the company is considered an integral part of the research and ask the tough questions that others can't or won't. These would be high quality businesses: stocks of companies which:

- Have the ability to generate high returns on capital employed because of the presence of a sustainable moat;
- Can grow earnings at a rapid pace without requiring access to outside capital markets;
- Are run by able, honest, and owner-oriented managers; and
- Can be purchased at valuations where the growth component of value comes free.

5-6 SPECIAL SITUATIONS/ARBITRAGE OPPORTUNITIES IN A YEAR
Alpha believes in beating market returns hands down without taking large risks and thus use Special situations/Arbitrage Opportunities as temporary parking places for cash waiting to be invested in high-quality businesses.

Risk arbitrage opportunities constitute opportunities arising out of announced corporate transactions such as takeovers, mergers, de-mergers, special dividends, share buybacks, and bankruptcy restructurings.

These are the opportunities with the high margin of safety because Special situations are to a certain extent immune from the regular Market risks and volatility. Since such opportunities are very few and occur at irregular intervals, Alpha has mentioned 5-6 opportunities in a year.
