Advances in Mental Health

Description: Advances in Mental Health is a forum for advancing mental health promotion, prevention of mental illness, and early intervention approaches to mental health. A contemporary peer-reviewed journal for mental health practitioners, researchers, students, lecturers, clinicians, nurses, social workers, carers, mediators, counsellors, consumers, commentators and policy developers, Advances in Mental Health is available in print and online formats.

In 2012, Advances in Mental Health volume 11 will appear in four issues - in March, July and November - in print (volume 11) + online (volumes 1-11) on a June-July subscription basis. Topical high impact special issues appear in each volume. Available special issues are linked in the right hand column.

The promotion of mental health and prevention of mental illness is a strategic and policy priority in Australia and is reflected in similar directions internationally...

To my mind this is a very important journal for mental health. It has provided opportunities for so many Australian, Asia Pacific and international mental health workers and researchers who would otherwise not have been able to publish.

- Graham Martin OAM
