Synopsis

Essential resource for top-line data and analysis covering the France airlines market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

Key Highlights

- The airlines industry comprises passenger air transportation, including both scheduled and chartered, but excludes air freight transport. Industry volumes are defined as the total number of revenue passengers carried/enplaned (departures) at all airports within the specified country or region, excluding transit passengers who arrive and depart on the same flight code. For the US and Canada, transborder passengers departing from either country are considered as part of the international segment. Industry value is defined as the total revenue obtained by airlines from transporting these passengers. This avoids the double-counting of passengers. All currency conversions in this profile were carried out using constant 2016 average annual exchange rates.
- The French airlines industry had total revenues of $13,299.5m in 2016, representing a compound annual growth rate (CAGR) of 3.9% between 2012 and 2016.
- Industry consumption volume increased with a CAGR of 1.5% between 2012 and 2016, to reach a total of 84.2 million passengers in 2016.
- The airlines industry is a significant part of the French economy as its contribution to GDP, both direct and indirect, is estimated at 4.2% according to IATA.
